WOMEN QUIT WARFARE ON LASH

NEW BREAK IN CABINET IS THREATENED

$10,000,000 IS BUILDING GROWTH HERE

Official Figures on Construction in Nine Years Are Given

REPORTED TO WASHINGTON

1923 War Banner Year But Prospects for 1924 Are Very Good

Building activities in Lima in the past nine years totalled over $10,000,000 wtih 1923 standing out as the banner year, according to a report submitted to the department of labor at Washington.

Official figures quoted in the report give the total as $10,281,-231 for nine years, starting with 1915 and ending Dec. 31, 1923.

Sharp rise in building was indicated after 1915, the dullest year with $159,519 expended in construction work. The following year more than $1,000,000 was expended for erection of public buildings and residences.

FULL REPORT

Official annual report of building permits indicates $159,510 in 1915; $1,037,623 in 1916; $1,133,515 in 1917; $488,980 in 1918; $1,534,625 in 1919; $560,580 in 1920; $742,-[illegible] in 1921; $1,725,218 in 1922; $2,898,940 in 1923.

Compiled report for 1923 indicate that $1,273,825 was spent by Lima officials in dwellings and $838,000 was put into apartment houses while the increasing popularity of automobiles caused expenditures of $153,670 for private garages and $30,000 for public garages.

Nearly one-half a million dollars for erection of new schools and remodeling of old school buildings swelled the building totals exclusive of nearly $200,000 to be spent this year.

In keeping pace with development of storerooms and erection of houses, sharp activities in industrial plants were indicated with expenditure of $118,000 for improvements to buildings and over $100 000 for additions, while in business establishments $46,500 was used for new stores and $44,000 for store alterations.

Unusual activities in the month and one-half of 1924 in construction work and the steady demand for new houses leads to belief by contractors of a year greater than 1923.

OFFICER IS SHOT TO DEATH

Volley of Bullets Fired Into Texas Dry Agent

GLENROSE, Tex., — (United Press) — Richard Watson, prohibition enforcement officer, and a star witness in prosecution of 88 alleged liquor law violators here, was shot to death from ambush early today.

Five men are held in jail in connection with the killing.

Watson had just returned from Fort Worth where he had testified in the trial of E. [illegible] Roark, former prosecutor of Somervell co. He was sitting in the home of Tom Duncan when a volley of bullets was fired through a window, killing him instantly.

The liquor cases were the most sensational in Texas, high officials including a former sheriff, being accused of accepting bribes. Watson was the chief witness against the sheriff and others. A brother, C. L. Watson, also a prohibition enforcement officer, has been a witness.

PROWLER REPORT

A report came to police headquarters Thursday evening that a man was seen looking over automobiles that were parked on Metcalf sts, between Market and Spring-sts. From his actions the report stated he was attempting to take motor meters from the autos. Police reported that on their arrival the man was gone.

COUNTESS DIES

COLUMBUS — Countess Helen Gittenden Pacelli, 43, died here today after a short illness from apoplexy. She was the wi[illegible] of Count Armando Pacelli now living in Paris. The countess was stricken last Saturday at her home here.

MAY RESIGN

HENRY C. WALLACE

Secretary of agriculture and President Coolidge differ as to farm aid policy and resignation of the secretary is expected.

MRS. CLEMENTS IS FOUND GUILTY

Jury Returns Verdict; Sentence Withheld Pending Trial Motion

Mrs. Ruth Clements, 21, was found guilty by a juvenile court jury Thursday on a charge of contributing to the delinquency of two minor boys.

The jury spent 20 minutes in deliberation before announcing its decision. Trial of the action occupied a greater portion of the day.

Altho conviction involves a possible term in the woman's reform school in Marysville, the defendant seemed unconcerned when the verdict was read in court. The court can also assume the custody of her two children.

Counsel asked the court to allow the customary three days period in which to prepare and file a motion for new trial.

Testimony of Walter English and Kenneth Helsel youths who are alleged to have bought liquor of the woman was instrumental in her conviction.

Mrs. Clements also is under conviction on a charge of selling liquor to the boys, but has not been sentenced. Her husband, Ray Clements is serving sentence in Dayton workhouse. He was found guilty in Toledo federal court.

SETS NEW RECORD

Lieut. MacReady, Up 41,000 Feet, is Forced Down

DAYTON — (United Press) — After reaching an indicated altitude of 1,000 meet, Lieutenant John A. MacReady was forced to return to earth today by engine trouble, otherwise he believes he would have set a record about which there would be no question.

He went up to break the record held by Sandi Lecointe of France, which is 36,745 feet.

If the unofficial figure of 41,000 eet is unchanged ater oficial calibration, MacReady will have attained the goal. This will be done by the bureau of standards in Washington.

It is believed here that official calibratioin will show MacReady to have set a new world record by several thousand feet.

WALLACE IS EXPECTED TO RESIGN SOON

Agriculture Secretary and President Differ on Farm Aid

PARTY SPLIT ON DAUGHERTY

Republicans Differ As to Demand for Resignation

WASHINGTON — (United Press)—Secretary of Agriculture Wallace today refused confirmation or denial of reports that he was about to resign from the cabinet, as result of differences with President Coolidge over the administration's farm relief program.

Wallace's only comment on the report was this statement: "I have not resigned."

The reports grew out of a split which developed during the recent conference here of northwest bankers' and farmers' representatives on relief measures for wheat farmers and for banks affected by depression in the wheat growing states.

President Coolidge endorsed the Norbeck-Burtness bill, providing for a fund of $50,000,000 to lend to farmers to enable them to diversify crops. Wallace and some of the northwestern farmers t ught he should also have approved the Norris-Sinclair bill creating an export corporation to dispose of surplus farm products abroad. His failure to do so caused a "rump convention" of supporters of the Norris-Sinclair bill in which Wallace joined.

Sentiment in the middle west and northwest is understood to be overwhelming for the Norris-Sinclair measure.

G. O. P. SPLIT ON DAUGHERTY CASE

WASHINGTON — (Associated Press)—Attorney General Daugherty's refusal to retire from office under fire led to an open disagreement among Republican party chiefs today as the senate prepared to drive home the attack upon him.

Chairman Adams of the Republican national committee revealed that he and other committee officials agreed with the attorney general that his resignation without thoro investigation would be absurd.

At the same time the Republican leaders of the senate who believe Daugherty should get out at once, agreed definitely to place at the head of the committee which is to investigate official acts, some other Republican than Senator Brookhart, of Iowa, one of the LaFollette Republican insurgent group, whose members repeatedly have attacked the attorney general.

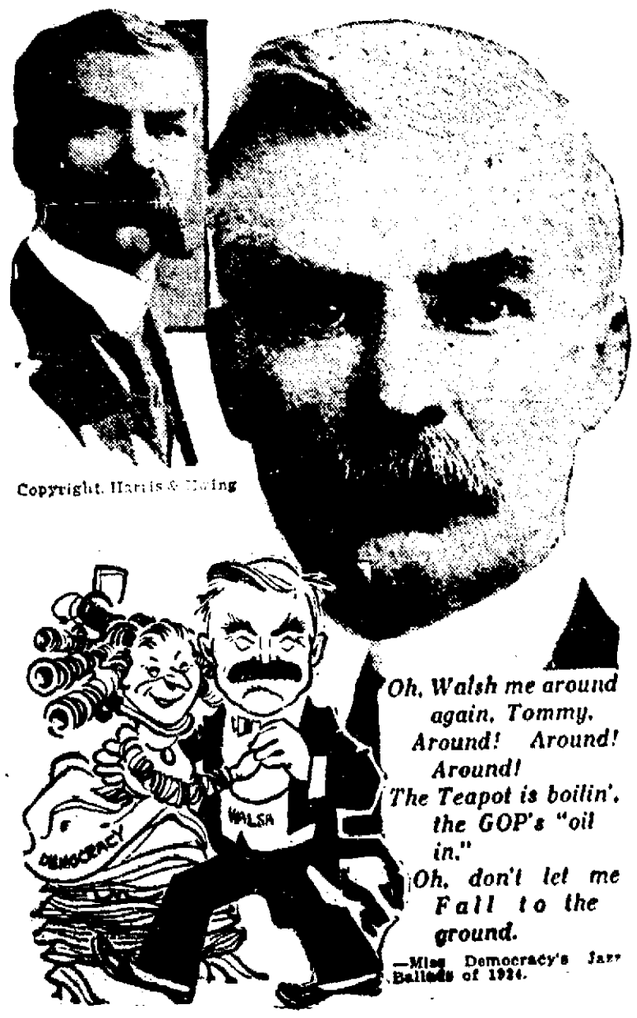

WALSH'S POSITION

In the midst of the discussion, Senator Walsh, Democrat, Montana, who has taken the lead in prosecuting the oil inquiry cases, ended a vacation in North Carolina, held a hurried conference with his colleagues and announced that unless further evidence was forthcoming he opposed an inquiry by the committee into the attorney general's reported dealings in Sinclair oil stock.

That matter, he indicated, could well be left for examination by the special committee authorized under

LEADER IN TEAPOT INVESTIGATION

Copyright, Harris & Ewing

Oh, Walsh me around again, Tommy. Around! Around! Around! The Teapot is boilin', the GOP's "oil in." Oh, don't let me Fall to the ground.

—Miss Democracy's Jazz Ballads of 1924.

Senator Walsh, a year ago (upper left), and now. Typical of the change that seems to have come over the Montana senator with his leadership in the Teapot Dome investigation, is his new manner of trimming his mustache. Gone is the drooping, gracefully curling mustache, and in its place is the squared-off, carefully trimmed lip warmer.

The senator suddenly returned today from a vacation trip to North Carolina.

Nation To Hear Coolidge Speak

WASHINGTON—(United Press)—The voice of President Coolidge will be heard thruout the nation tonight when he broadcasts from his White House study an address on George Washington.

The president will commence his speech at 10 p. m., eastern standard time. It will be broadcast from stations WCAP, Washington, 469 meters WEAF, New York, 492 meters, and WJAR, Providence, R. I., 360 meters.

An improved microphone which the president will use, is said to eliminate all vocal distortions.

MEN FOUND DEAD

Fumes from Auto Exhaust Believed Cause

DAYTON — (Associated Press) — E. E. Kimmel and police today were investigating the deaths of two unidentified white men about thirty years old who were found dead in a transfer truck near here early this morning.

The men, according to Carl Bock of Indianapolis, driver of the truck, were picked up, one at Richmond, Ind., and the other at Dayton yesterday morning when given permission by Bock to accompany him to Cincinnati and Cleveland on their promise to help him.

They were given permission to sleep in the garage overnight by Bock and it is believed fumes from an exhaust from a motor truck in the garage caused their deaths.

WOMAN SLAIN BY 3 GUNMEN

Shot to Death in Her Store at Detroit

DETROIT — (United Press) — Revenge or fear, police believed today, led three gunmen to shoot down, without mercy, Mrs. Elizabeth Bushey, 25, proprietor of a small store here.

The slaying occurred last night

Nine bullet wounds were found in the woman's body.

Peter Messina, arrested in the vicinity shortly after the murder, was held as a suspect.

The slayers entered the store, asked Mrs. Bushey where Frank Misuraca was, and then started firing.

Misuraca was recently acquitted on a charge of stealing an automobile, altho a companion was convicted. The mention of his name leads authorities to believe that the gunmen either sought revenge or feared revelations Mrs. Bushey might make.

THEFT CHARGED

COLUMBUS—Two men who gave their names as Bert Williams of Springfield, Ohio, and Leroy Smith of Clarion, Pa., both 20 years of age, have been returned to Columbus on charges of stealing the automobile of James Starrett here on Feb. 15. They were arrested in Sharon, Pa.

DIVORCED FROM ACTOR

LOS ANGELES — Mrs. Robert Edeson, known on the stage as Mary Newcomb, was divorced yesterday from Robert Edeson, motion picture actor. She alleged non-support.

LETTER WAS SUGGESTION, NOT DEMAND, THEY SAY

Decision is Reached at Meeting Held Thursday Night

DISCUSSION TO BE STOPPED

Present "Dissension" Has Bad Effect on Children, Is Belief

Women of the Lima Federation of Women's clubs who sought to aid the new school board in adoption of school regulations, are out of the corporal punishment controversy.

Snubbed, rebuffed, ignored and their offer of assistance twisted to aid others to profit selfishily, the federation thru educational committee Thursday night officially decided to withdraw from what they never intended, expected or wanted to be a fight.

The women of the federation, when the new school board announced thru its president, Dr. R. A. Buchanan, proposed revision of rules, stepped forward and in a spirit of cooperation offered to assist. They did not make any demands, neither did they seek to usurp the board's power as claimed.

DEFIANCE HURLED

Defiant attitude of the board's president, Dr. Buchanan, also chairman of the rules committee, that the board would do nothing unless the women withdrew their letter urging abolishment of corporal punishment and then declared he would run the schools to suit himself, as well as what is termed undue publicity in another afternoon paper are given as reasons for the women's action in meeting Thursday night.

Loath to continue the controversy as it tended to set a bad moral example for school children and caused dissention, members of the women's educational committee officially "washed their hands" of the squabble termed as "most unfortunate as far as the schools are concerned."

Ridiculed in their constructive proposal, intended not as criticism of the board's policies, but as cooperation as mothers of school children, the club's educational committee in its vote Thursday night expressed the sentiment of the federation.

BAD EFFECT

"We feel further controversy tends to have a bad moral effect on school children and to overcome this we are adopting the quickest method," one member of the educational committee said.

"As mothers of 21 children, we six members of the educational committee," another member stated, "proffered aid in a spirit of cooperation with no desire of a fight as has been waged against us in our endeavors."

"The question has been debated freely and as we deem it has a bad effect on school children," a third member said, "we voted to allow the agitation to die down."

Lash provisions incorporated in revised rules adopted by the school board on Tuesday, Feb. 12, provides for punishment by teachers to maintain discipline.

"It shall be used as a last resort to maintain discipline," the rule sponsored by President R. A. Buchanan, Dick Judkins and L. G. May, reads. It was primarily proposed as a threat over children but records clearly indicate that school officials use it as an effect not as a threat.

DOG ENDS LONG TREK HOMEWARD

SALEM, Ore.—Last summer G. F. Brazier of Silverton, near here and his family visited at Wolcott, Ind., and took with them their dog "Bob," a collie. The dog disappeared and the Braziers came home without him. A few days ago Bob arrived in Silverton, weary and sore-footed, but otherwise healthful.

TAXI RATE BOOST OPPOSED

Municipal Action May be Seen in Matter, Officials Say

CONFERENCE NEXT WEEK

Liability Clauses to be Principal Topic for Discussion

Municipal opposition to any legislation proposing decided fare increase for taxi service in Lima is predicted at the conference with taxi cab operators next week on a meter ordinance and liability insurance.

Reduced liability insurance rates proffered to companies entail an expense of approximately 50 cents daily for operation of each taxi carrying $10,000 insurance for passengers, it was reported in connection with receipt here of letters from other cities which indicate that ordinances there are more drastic than contemplated here.

INCREASE SMALL

"Increase of 50 cents daily in operation expense should not entitle taxi companies to any decided fare rate increase," City Manager C. A. Bingham stated in reference to the conference which he will call the latter part of next week.

Liability insurance ranging from $1,000 to $10,000 for each taxi cab is demanded in other cities in addition to annual operation license fees of from $25 to $50 for each car. Provisions also give the city the right to revoke licenses and impose fines of from $10 to $500 for violation of traffic ordinances.

CITY TO PAY $351 JURY DECIDES

Property Owner Wins Award for Alleged Damage

Judgment in the sum of $351 was awarded Jake Watkins, colored, E. North-st by a common pleas jury which reported at 9:30 p. m. Thursday. Watkins sued the city for damage to property owned by him, done by the construction of the E. North-st bridge in 1921.

Engineers in charge of the work raised the grade of the street several feet, rendering a sidewalk in front of the property useless, Watkins held. Water drained off the street onto property during wet weather, because of the elevation, he said.

Watkins brought action for $600. The city resisted the suit and sought to show that the construction of the bridge was an asset to the value of the lot, rather than detriment.

HUMAN SIDELIGHTS ON WASHINGTON'S PERSONALITY REVEALED

NEW YORK—(Associated Press)—Intimately warm and human sidelights on the personality of George Washington as a young man, a soldier and statesman and head of a family, are revealed in letters written by "The Father of His Country," now in the possession of the Pierpont Morgan Library, which has been turned over to the public by J. P. Morgan as a permanent memorial to his father.

In a letter written September 23, 1756, to Mrs. George William Fairfax, he said in part:

"I have sent a piece of Irish linen, a piece of cambrick and a shirt to measure by. The shirt fits tolerably well, yet I would have this made with somewhat narrow wristbands ruffles larger by one-half an inch and the collars by three-quarters of an inch, which is in other respects of proper bigness. If Miss Nancy will do me the favor to get thread and buttons suitable it will oblige me much. I have really forgotten to procure them myself."

In marked contrast is a letter written in 1789 from Mt. Vernon to Captain Conway:

"Never till within these two years have I experienced the want of money. Short crops and other causes not entirely within my control, make me feel it now very terribly. Under this statement I am inclined to what I never expected to be reduced to the necessity of doing that is to borrow money on interest. Five hundred pounds would enable me to discharge what I owe in Alexandria, Virginia * * * having thus fully and candidly expressed myself, permit me to ask whether it is within your power to supply me with the above or a smaller sum."

In more cheerful vein is the letter dated February 10, 1796, to Miss Elizabeth Parke Custis, his stepdaughter "Betsey":

"I * * * assure that if Mr. Law is the man of your choice, of which there can be no doubt, as he had merits to engage your affections, and you have declared that he has not only done so, but that after careful examination of your heart you cannot be happy without him- that your alliance with him meets my approbation —yes Betsey this approbation is accompanied with my fervent wishes that you may be as happy in this important event as your most sanguine imagination has ever presented to view—along with these wishes, I bestow on you my choicest blessings."

Among the letters are a lock of Washington's hair, a piece of lace, and one of silk from Martha Washington's wedding dress.

Describing the surrender of Yorktown to General Greene in 1782, he said:

"This proposition * * * led to definite capitulation which was signed on the 19th in which His Lordship surrenders himself and troops prisoners of war to the American army, marched out with colors cased and drums beating a British march to a post in front of their lines, here their arms were ground, the public stores arms, military chests, etc., delivered to the American army; the ships, with their guns, tackle, apparel etc., with the seamen, surrendered to the naval army under Count De Grasse; Lord Cornwallis, with a number of his officers, to have liberty to go on parole to Europe, New York or any other American maritime post in possession of the British forces at their option; his troops to be kept in Virginia, Maryland or Pennsylvania. These are the principal articles."

Ten years later Washington at Mount Vernon wrote to James Madison of his intention to retire from public life and requested him to write a valedictory address for him to the public and outlining what he would like to have incorporated in it.

An important feature of the collection consists of several letters which Washington wrote abroad in the hope of liberating Lafayette from prison. The former aide to Washington was impeached by the French assembly. He judged it best to leave France and was captured by an Austrian patrol on crossing the frontier. The Germans kept him in prison for a year and turned him over to the Austrians.

Washington determined the best course would be to divest himself of the character of president and appealed to the emperor of Germany as an individual.

SINCLAIR LOSES OIL LEASE SOUGHT IN ITALY

ROME — Harry F. Sinclair loses, for the time being at least, the Italian oil leases he sought here.

The Teapot Dome scandal found an echo in the Italian press, a strong [illegible] tion of which attacked Signor Corbino, minister of national economy for granting Sinclair's company a monopoly to drill for oil in all Italian possessions.

Signor Corbino, accordingly decided not to sign the convention and to submit the matter to the personal consideration of Premier Mussolini, who is inclined to favor the Italian oil interests.

ENGINEERS TO MEET

STEUBENVILLE — A corps of government engineers, appointed by the war department, will meet here March 8, to consider plans for building a panhandle railroad bridge over the Ohio river to replace the old structure north of the city.

NARCOTIC CHARGE IS DENIED

India Doesn't Ship Opium to U. S., Government Agent Says

CLAIMS SALES RESTRICTED

Declares Legitimate Purposes Must be Shown

LONDON—(Associated Press)—Charges made in certain quarters that the governments of Great Britain and of British India are ultimately responsible for the abuse of narcotics in America because opium and similar drugs are produced in, and exported from British colonies or dominions, are answered by John Campbell, representative of the India government at the Geneva opium conference of August 1924, who contributes an article to the current Asiatic Review on "The Opium Question and America."

Campbell makes the official statement that "India does not export opium to the United States and only has exported trifling quantities at very irregular periods, to countries on the American continent; neither does India export opium to England or to any other country for eventual re-export to the American continent. Moreover, no Indian opium finds its way to America by any channel whatsoever except possibly such trifling quantities as may be smuggled by the crews of ships trading between Far Eastern ports and ports in the United States. India does not now, nor has she at any time, exported dangerous drugs to America either directly or indirectly."

GOVERNMENT POLICY

The writer declares that the India government has for years steadily pursued the policy of selling opium as far as possible direct to governments of other countries, and so far from pressing its opium on any country, India requires as a condition precedent to export that the importing government must satisfy itself that the quantity asked for is reasonable; that the importing government must certify that the opium is required for legitimate purposes and that it must assume the administrative and moral responsibility of seeing that the opium imported is not employed for purposes of abuse. As a result, India now sells roughly three-fourths of her opium exports direct to responsible governments, and has refused to allow exports in cases where it was thereby satisfied that the certificates produced were unreliable.

He continues: "Opium smuggling can only exist in virtue of excessive demands made on India by dishonest or incapable governments; demands which the India government cannot reasonably reduce until it is in a position to satisfy itself on clear evidence that the quantities asked for are unduly large."

Pointing out the impossibility of control in a country where the raw material is grown, the writer says that it is the factories where drugs are made that should be placed under adequate supervision.

A real menace to the world Mr. Campbell sees in the "wholly illegal and uncontrolled production of opium in China, where more than 80 percent of the total crop of opium is grown."

PLAN TO ABOLISH WIGS; GOWNS STIRS IRISH BAR

DUBLIN — The bill which proposes to abolish in the Free state the traditional legal system of costumes and set up in its place a more modern system, has passed the Dail and now is in the senate. In the latter body much of the preliminary discussion of the bill had to do with the question whether wigs and gowns shall continue to be worn. The bill provides for the decision as to whether the judges and members of the bar shall wear any special costume and what that costume shall be shall rest with the minister for home affairs, acting with a committee representing the legal interests.

The legal profession is strongly attached to its wigs and gowns and the subject is likely to lead to heated discussion because the government is in favor of some dignified costume that will impress upon the people mind the realization of the change from British control of all law to the control of the Irish people.

SHOES FOR OFFICE BOYS. OBJECT OF FRENCH BILL

PARIS — In the midst of measures providing for drastic economies and increased taxation, the French chamber of deputies will consider a bill sponsored by the leader of the radical party and reading as follows:

"The Chamber invites the government to restore in the 1924 budget the indemnity to the ushers, office boys and clerks in governmental offices and ministries, permitting them to buy their working shoes at the expense of the state."

TALKING WOMAN MADE BASIS OF COURT APPEAL

PAINT CAIL, Ky., — That a woman defendant talked so much the jury hearing the case was unable to think, is the allegation upon which counsel for the plaintiff in a recent case here today were seeking a new trial. Mrs. Josephine Woeltz Wurth was defendant in a suit brought by a bank for collection of a note for $150, which she was alleged to have signed as surety. Mrs. Wurth won a jury verdict.

In filing a mention for a new trial, plaintiff's counsel set forth that the defendant "talked to the jury to such an extent that an intelligent consideraion of the case could not be had."

HIGH SCHOOL GIRLS ADOPT VOLUNTEER DRESS REFORM

PHILADELPHIA — Heartaches among students at the South Philadelphia High school for girls because of the vagaries of dame fashion have been banished by the adoption by school authorities of a uniform dress for students. Altho wearing of the dress is voluntary, a large group of the girls have already ordered the garb, and the sentiment that the uniform is a manifestation of school spirit is reported spreading among the rest of the student body.

The uniform is the outgrowth of a self-government plan. At open forums on school spirit and school problems recently led to discussion of dress in which parents of the girls participated. The uniform was favored by all present.

The costume comprises a dark blue jumper with the school monogram embroidered in gray silk, white tailored waist, sport shoes and stockings. The cost is said to be ten dollars.

POMERENE IS ASKED TO ENTER PRESIDENTIAL RACE

LINDLAY — Atlee Pomerene, former United States senator from Ohio, and now special prosecutor for the government in the Teapot Dome investigation in Washington, will be urged to seek the Democratic nomination for the presidency.

The local central Democratic committee adopted a resolution here late yesterday, directing that a communication be mailed to the former Ohio senator to enter the race.

New Lamp Burns 94% Air

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, G. M. Johnson, 609 W. Lake St., Chicago, Ill., is offering to send a lamp on 10 day's FREE trial to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month. adv

ALL THAT STEVE BRODIE'S BRIDGE-JUMPING RIVAL GOT WAS VERY WET AND BADLY BRUISED

(BY STEVE HANNAGAN)

LONG ISLAND CITY, N. Y. — (Special) — Steve Brodie has a rival.

Steve, you will remember, leaped off the Brooklyn Bridge into the murky waters of East River and everlasting fame.

Now comes Peter Robinsky, 40 married and the father of seven children, the only man who ever plunged the 135 feet from Queensboro Bridge to the water below and lived to tell the tale.

All he got was wet and bruised.

His plunge will never lift him from the trench of hard work to the heights of celebrity.

In a few days he'll be back swinging a pick.

Yes, I made the jump feet first. Certainly it hurt when I landed on my shoulder and back," he explained in broken English from his cot in St. John's Hospital here.

He would assign no reason for his feat, and denied ever having heard of the illustrious Mr. Brodie or his history-making dive.

"He'll be about in a few days," the nurse explained.

Now with Steve Brodie it was different.

An oil-cure Bowery saloonkeeper, he wagered he could jump off Brooklyn Bridge—and did!

Thereafter the adventuresome public became attracted to the high lights of the sporting world.

For all Steve Brodie's fame there was one man who snubbed him. When the father of a famous prize fighter met him and was told of Brodie's jump he glared at him in derision and shouted:

"Hell, jumping off Brooklyn Bridge is nothing. Since I thought you jumped over it. Anybody could jump off it."

Yes, Steve Brodie—the kid who took a chance—is now dead.

FOUR MEN SCALDED

WASHINGTON C. H. Four men were scalded when a tube in a boiler blew out at the plant of the Washington Gas and Electric Company. Leland Hartsford, engineer, may die of his burns.

MOTOR DRIVEN SHIPS FORCE SAIL AND STEAM FROM SEAS

STOCKHOLM — The romance of the sailing ship will soon become a thing of the past in Sweden, Denmark and Norway, if one may judge by the statistics just given out by the Norske Veritas, which keeps the official shipping record of Scandinavia. Of the tonnage under construction in the yards of the three countries on January 1 not a single vessel was designed for sailing. But the steamship also appears to be doomed, for over one-half of the vessels now building in Scandinavian countries are to be motordriven.

Of the three nations Sweden is the only one that shows a net increase in the merchant fleet as the result of all construction, purchases, losses, sales, etc., during last year, the net increase being 16 vessels aggregating 57,000 gross tons. For Norway there was a decrease of 18 vessels totalling 36,000 gross tons, and for Denmark a decrease of 41 vessels totalling 24,000 gross tons. In Norway, however, steamships and motorships taken by themselves showed an increase of 17,000 tons.

SEEK TO HONOR WOMAN WHO SAVED MEN'S LIVES

NEWPORT, Rhode Island — The fame of Ida Lewis, brave light house keeper, will be perpetuated in a way to make her name familiar to all mariners of the future, if a movement under way in this city and Washington is successful. Admirers of the woman who repeatedly risked her life to save seamen shipwrecked off the harbor here are trying to have the names of Lime Rock Light and Lime Rocks, in the southern part of the harbor, changed to Ida Lewis Light and Ida Lewis Rocks.

For many years Miss Lewis was keeper of the Light. Not content with merely keeping the beacon burning, she personally assisted in the rescue of more than 20 men by rowing out to wrecked ships in her small boat.

Doctor's Prescription Amazing Success Overcomes kidney Ailments and Backache

Thousands Die Yearly Who Ought Not to Die—Kidney Troubles Kill Them. It's Guaranteed. 6 Ounce Bottle 75c

The small delicate sieves in the kidneys clog up—the poisons that should strain through and pass out with the water back up and get into the system—this means uremic poisoning and may mean the loss of some loved one.

Best for all of us to look the facts in the face and heed nature's plain danger signals.

The life work of Doctor Daniel G. Carey was the study of diseases of the urinary system and his famous prescription of roots and herbs known the country over as Dr. Carey's Marshroot Prescription 777 has helped others to get well—and stay well.

Daniel G. Carey, M. D.

If you have backache or frequent headaches, if your sleep is disturbed and you get up in the night, if your eyes are puffy and palms moist, cut out this notice, take it to your druggist and say, "This is what I want: Dr. Carey's Marshroot Prescription No. 777."

You can always get it in liquid or tablet form at Green's Public Drug Store, Hunter's Drug Store for 75c. Both are equally effective and if you aren't glad in a week's time that you bought it, just get your money back—that's the way this successful medicine is sold. adv.

ALLEGED BANDITS CAPTURED

Taken at Warren After Escaping from Alliance Jail

FIGHT WAY TO FREEDOM

Prison Janitor is Beaten With Copper Bar

WARREN, Ohio. — (Associated Press) — Oliver Harris, alias Harry Johnson and Oscar Harris alias Joe Myers, alleged automobile bandits, were captured at their home here early today by Warren police after they had escaped from the Alliance jail yesterday after attacking Charles Garner, jail janitor, with a copper bar.

They are being held for the Alliance police.

Warren police said the two men are known here under names of Harris and said they admitted giving the wrong names to the Alliance police.

CLEVELAND — (United Press) — A state-wide search was being conducted today for two alleged automobile bandits arrested here Sunday, who broke out of the Alliance jail late yesterday after beating the jailer to unconsciousness with a piece of copper pipe.

They escaped from Alliance in a city owned automobile.

The alleged bandits, Joseph Meyer, 26, and Henry Johnson, 22, of Portsmouth, were arrested in Cleveland while driving an automobile they are alleged to have stolen from R. W. Meyers, of Alliance.

When Charles Garner, 52, Alliance jail janitor, entered the jail corridor, with his pail and mop about 2 p. m. Thursday, the men reached thru the bars of their cell and knocked him unconscious.

Taking Garner's keys, the bandits let themselves out and escaped in an automobile used by J. O. Stanley, superintendent of the Alliance waterworks. Garner suffered severe lacerations of the scalp.

The car was found abandoned later at Deerfied, Ohio, seven miles from Alliance.

COLLEGE LIFE IN U. S. CRITICIZED BY SPEAKER

COLUMBUS — False values of college life in the United States particularly "the excessive emphasis of athletics" and the failure of colleges to stress the study of constitutional government, politics and history, were criticized as impairing the citizenship of students by James M. Beck, solicitor general of the United States, in an address today at Ohio State University during university day exercises.

Taking as his text the last message of George Washington to congress, Beck lamented the fact that colleges are not directing more attention toward making of a "more homogeneous citizenship."

He compared American colleges with those of England and said "it must be sadly confessed our higher institutions of learning have not rendered equal service to the state in developing political leadership as have the great universities of Oxford and Cambridge."

Beck would deny a degree to any student who could not "satisfy the primary requisites as an American" by passing a test not only on the text of the constitution but "more especially on the fundamental philosophy" of the basic law of the land.

COMMANDER PREPARES FOR FLIGHT AROUND WORLD

CHICAGO—Major F. L. Martin, commander of the U. S. army air squadron of "world cruisers" was prepared to leave Chicago tonight for Los Angeles to prepare for the flight around the world.

"We hope to leave about March 15, and to make the trip in six months, possibly less, altho speed is not one of our objectives," said Major Martin today. The four planes selected for the expedition are of the government war plane type, powered each with a 12 cylinder liberty motor. No radio equipment will be carried and all equipment aboard will be held to a minimum. The planes already are at Los Angeles where the other members of the expedition have preceded their commander.

GNATS SO THICK THEY SMOTHER DOGS TO DEATH

ANCHORAGE, Alaska — Gnats, ever the curse of life to prospectors in some of the gold regions of Alaska in the hot season, came so thickly last summer in the Iditarod and Flat districts, in the interior, that they smothered dogs to death. The tale of the affliction laid by these insects was brought here by Herbert Riley, who has a dog transportation system along the Yukon river.

"Before we realized what had happened many of our dogs had been smothered to death," he related. "Some of the dogs fought the insects and saved themselves, but others gave up and were dead in a few minutes. We found that by keeping the dogs in sheds or caves where it was dark we could protect them. The men wore gloves all the time. Over our heads we had silk cloths. We burned insect powder continually."

NEGRO DIALECTS ARE OF ENGLISH ORIGIN

STANFORD UNIVERSITY, Cal.—Negro syntax and pronunciation has no other origin than English, said G. P. Krapp, professor of English at Columbia University, in a recent lecture here.

There remains no trace of any alien speech which the negroes might have had at first, Prof. Krapp pointed out. He added that the words "voodoo" and "hoodoo" might possibly be of African origin, but that "mosey," "jazz" and "tote" and many other slang expressions spread by the American negro were ancient English derivatives.

FIRST MONUMENT TO WASHINGTON

BOONSBORO, Md. (Special)—The first monument ever erected to the memory of George Washington stands in a bramble patch on the summit of South Mountain near Boonsboro, its top knocked off by lightning and its side rent by an alien enemy's dynamite.

It was built by Boonsboro citizens who had fought under Washington in the Revolution and was dedicated July, 4, 1827.

At the instigation of Harvey S. Bomberger, state senator of Maryland, Representative Zihlman, in whose district it stands, will ask Congress this week to restore the pile and make it a public reservation.

It overlooks the Antietam and Gettysburg battlefields, Harper's Ferry, the route of General Sheridan's famous ride and a number of other historic spots. All who go over the old national highway east and west pass the spot.

WASHINGTON'S FIRST MONUMENT

BREAK IN CABINET MAY BE NEAR

(Continued from Page One)

the resolution by Senator Wheeler, Democrat, Montana, for a sweeping inquiry into Daugherty's administration of the department of justice. A favorable reply on this resolution was ordered by the audit committee and its adoption in the senate is expected Monday.

DAUGHERTY IN SENATE

Daugherty himself created a stir by appearing in the senate chamber at the opening of today's session. He explained that a month ago he had promised Senator Willis, Republican, Ohio, that he would listen to the reading by that senator today of Washington's farewell address.

A number of senators shook hands with the attorney general who took a seat in the rear of the chamber on the Republican side. He was joined there by Senator Moses of New Hampshire, chairman of the Republican senatorial campaign committee, who chatted with him until Senator Willis began the reading of the address.

An agreement for an adjournment until tomorrow after the reading which is an annual event prevented presentation of the favorable report on the Wheeler resolution. Chairman Keyes will make the report tomorrow, but action will be deferred until Monday because of the absence of a number of senators from Washington.

AGREEMENT SOUGHT

Meantime Senator Wheeler will seek an agreement with Republican leaders as to who will have the chairmanship of the investigating committee in place of Senator Brookhart.

Under the agreement between Senator Wheeler and Senator Lodge of Massachusetts, the Republican leader, President Cummins will appoint the senators originally proposed by Wheeler as the investigators, except for Senator Brookhart.

Previously it had been indicated that the entire slate proposed by Wheeler on the ground that he wanted a "real investigation" might be accepted by the Republican leaders.

In announcing he did not favor Daugherty's retirement until the inquiry was completed, National Chairman Adams apparently voiced the sentiment of other officials of the national committee who have had several conferences on the subject. It was indicated also that their views had been communicated to President Coolidge.

"We feel that the demand now for the resignation of Mr. Daugherty," said the chairman, "without a hearing or trial in face only of unsupported charges is absurd."

CAPITAL SURPRISED

The sudden return of Senator Walsh caused much speculation at the capitol. He had planned to remain at Pinehurst until the end of the week. He denied that any "specific matter" had occasioned a change in his plans, but said he had felt some anxiety over the trend of the oil investigation had seemed to take in the past few days."

Senator Walsh added, however, that the procedure followed by the committee during his absence was in accord with a program which he had approved before he left Washington last Sunday night.

Immediately upon his return he conferred with other members of the committee and with Senator Wheeler to acquaint himself with the intimate details of events transpiring in his absence. A subpoena will be issued for Harry F. Sinclair Senator Walsh said, adding that the possibility of the oil magnate refusing to testify on the same ground as did Albert B. Fall, had been given consideration. He said that if Mr. Sinclair took that position no attempt would be made to influence a change in his attitude.

Discussing the public statement of Senator Elkins, Republican, West Virginia, that he had traded in Sinclair oil stocks, Senator Walsh said the committee's decision to await complete examination of the brokers' books before following any "individual leads" was a wise one.

DAUGHERTY'S STATEMENT

Daugherty's statement of his position was made late yesterday in a letter to Senator Pepper of Pennsylvania, who, with Senator Lodge, advised President Coolidge to ask for the attorney general's resignation. Earlier in the day it had been disclosed that a report received by Senator Wheeler from a special investigator stating that Daugherty had dealt in Sinclair oil stock was being investigated by the oil committee and had been placed before the president.

The attorney general made no reference to the Sinclair stock report in his letter to Senator Pepper which was sent in response to a note addressed to him by the latter informing him of the conference with the President.

CHARGES DENOUNCED

He denounced as "baseless, scandalous and defamatory" the charges of "my political adversaries in the senate, and declared his "elimination voluntarily or otherwise" would be a confession that they were true.

"I never will be a party to such a program," he asserted, asking "am I to be denied a right granted to even the basest criminal to trial by his peers?"

Daugherty sent a copy of his letter to the White House but officials there made no comment except to say that he had not consulted them before he wrote it. Senator Pepper said his note to the attorney general had been sent after the White House conference because it occurred to him "that perhaps I had been in the position of saying something about a man behind his back" and he did not regard it as one requiring a reply.

MAY EXCUSE SINCLAIR

WASHINGTON — (United Press) —Harry F. Sinclair, lessee of Teapot Dome, may be excused from testifying before the senate committee on advice of the president's special counsel in the oil leasing cases.

The Sinclair is tentatively scheduled to appear Monday, Senator Lenroot, chairman of the committee, said no subpoena has been issued for him. Lenrot has talked with Sinclair by telephone but declined to say what arrangements was made with him

Atlee Pomerene and Owen J. Roberts, the special counsel, are understood to have suggested it might be better not to permit Sinclair to testify. They advised the committee to excuse Albert B. Fall, former interior secretary, so he could not claim immunity in court.

SENATOR FRANK GREENE CONTINUES TO IMPROVE

WASHINGTON — Further improvement in the condition of Senator Frank L. Greene of Vermont, was announced at noon today. Dr. Thomas Linville, issued this bulletin:

"Senator Greene's condition is improved and it is more hopeful."

Altho the senator spent a restless night and had a slight temperature, his friends were more cheered by the news from his bedside than any time since he was shot, a week ago.

OIL PIPE BURSTS AT LOCO PLANT

Watchman's Shanty Destroyed by Fire Early Friday

Bursting of a small oil pipe early Friday morning at the Lima Locomotive Works filled a portion of the factory with smoke and caused a cessation of activity until the fire was extinguished by the Lima fire department.

Practically no damage was done by the fire or the smoke and after a few minutes battle, work was resumed. Operation of the plant will not be held up thru the bursting of the pipe.

An overheated stove caused the department to be called to the watchman's shanty in the L. E. & railway yards. Firemen arrived too late to save the shanty. It was completely destroyed.

A burning flue at the home of M. D. Owen, 701 W. Elmsr, caused a run by the department Thursday evening. No damage was seen.

FOREIGNERS DECLARED TO BE GIVEN PREFERENCE

NEW YORK — In all branches of art and literature foreigners are given preference over native American talent, William A. Brady, theatrical producer, declared. He made the charge in an interview last night after a public address in which he said that the Metropolis Opera House was entirely alien in personnel, methods and organization and that Americans had no chance there. Officials denied this.

"I don't care whether it's art, poetry, music, literature or the theatre," Mr. Brady said. "The cry is 'down with the native American, up with the foreigner.'"

He criticized as the latest example of this craze for "imported goods" a proposal to build a theatre for Max Reinhardt, the German playwright-producer.

KISS IN THE DARK CAUSES RESIGNATION

KANSAS CITY, Kas.—A "kiss in the dark" today caused resignation of E. E. Damon, instructor in printing at the Kansas City, Kansas, high school.

Charges were brought against Damon before M. E. Pearson, principal of the school, that the printing instructor accepted a dare and kissed Miss Margarete Pratt, 18-year-old senior. Miss Pratt, who lives with her grandmother, Mrs. M. C. McClellias, is a daughter of W. B. Pratt, of Cleveland, Ohio.

PROSECUTING ATTORNEY MUST PAY LIQUOR FINE

PIQUA — Kenneth Little, prosecuting attorney of Miami-co. must pay a liquor possession fine of $500. The conviction and fine were affirmed in common pleas court here late yesterday on appeal from Mayor Deaton's court at Troy. Wine, grape juices, according to Little, was found in his home and used as a basis for the case.

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after cold or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—Ad.

NEWTON D. BAKER BACKS COX

Former War Secretary Stands by League of Nations

CONVENTION SEAT SOUGHT

Desire to Get on Resolutions Committee Expressed

CLEVELAND—(United Press) — Newton D. Baker, former war secretary, Friday declared he will support James M. Cox, former Ohio governor, for the Democratic nomination for president.

Cox has signified his intention of entering the Ohio preferential presidential primaries in April.

At the same time Baker served notice that he will urge a League of Nations plank in the Democratic platform.

Baker, in an interview with the United Press today:

1—Declared he is for Cox for president.

2—Expressed a desire to be made a member of the Democratic convention's committee on resolutions, to enable him to urge frank League of Nations platform.

3—Announced he is a candidate for delegate to the Democratic convention from his district.

PROUD OF FIGHT

In his interview, the former secretary of war said:

"I believe Democrats are proud of the splendid fight made by Gov. Cox in 1920, on the question of American foreign relations.

"He was loyal to the highest interpretation of the great ideal of international cooperation in the interest of peace which President Wilson had proclaimed.

"No other Democrat so fully embraces that tradition at this time.

"I expect to be a candidate for delegate to the Democratic convention from my district. I would like to be a member of the resolutions committee of that convention, that I may urge the adoption of a platform that will state bravely and frankly that we favor the United States joining the league of nations, under such reservations as the senate may see fit to impose."

CONFERENCE MAY END TRANSPORTATION TIE-UP, RESULT OF FARE RAISE

AKRON — (Associated Press)— With Mayor D. C. Rybolt's plans for reorganization being buffeted around by city council, hopes for a compromise which will end Akron's present transportation muddle rest in a conference scheduled between city officials and representatives of Northern Ohio Traction and Light Co.

This conference today is one of several that have been held during the recent weeks, all of which have been secret. Today's meeting follows several stormy council sessions during which the traction bus plan have been attacked by the minority group in council.

Unless today's conference nears some agreement, another probable fight is expected when council meets this afternoon in adjourned session to act on the Mayor's request for an appropriation of $12,000 to be used in aiding motorization. This is the second appropriation requested by Mayor Rybolt, council granting him $3,000 previously.

The transportation muddle is an outgrowth of suspension of street car service when the city refused to increase the fare above five cents.

CONCRETE REPLACES GOLD IN MINING TOWN STREETS

GRASS VALLEY, Cal. —Despite the tradition that has clung to this mining town of the Sierra Nevada mountains for 75 years, that its streets literally were paved with gold, the populace, swept at last by the modern spirit, has caused thick coatings of concrete to be laid over the reputed gold.

The tale of golden paving had some color of truth, for gold in the form of small nuggets and particles clinging to quartz was found not infrequently. This was due largely to the fact that from the earliest days the streets were macadamized with refuse from the mine reduction plants encircling the town. There was, besides, a certain amount of gold in the soil under the streets.

FIRST AS USUAL IS TED'S BOAST

"My intelligence bird tells me somebody's going to have a piece in today's paper stating Br'er Groundhog didn't emerge from his winter home Feb. 2," says a radio special from Ted to The News. He says "Feb. 3 is official Groundhog Day. I don't know what day he's supposed to come out, but I want to recall that on Feb. 2 I scooped the world by announcing that Br'er Groundhog stayed in his hole all day. I took credit for keeping the professor there because I was afraid he'd not see his shadow and I wanted more winter. Now comes someone who says the professor didn't intend to come out. Looks like I sat on guard all morning for nothing but am glad to know my story the professor didn't show up, is confirmed. Now for some more clouds, a little warmer weather and some more rain or snow."

FIGURES SHOW FRENCH ECONOMIC SITUATION

PARIS — The French economic situation is shown in a series of tables in Le Matin, furnished by Emmanuel Evain, chairman of the auditing committee of the chamber of deputies. The principal tables are those of civil and military expenditures and receipts from taxation.

The former shows a steady decrease from 1919, when the total was 25,345,00,000 francs, to 1923, when the total was 23,755,000,000 francs. Receipts from taxes increased from 9,707,000,000 francs in 1919 to (estimated) 23,437,000,000 francs in 1923.

Mabel Gilman Corey Doesn't Deny the Reports

MET ON HONEYMOON TRIP

Former Actress isInterviewed in Paris

PARIS — (United Press) — "One never knows," quoth Mabel Gilman Corey with an enigmatic smile, commenting today upon reports that she is to marry Don Luis Ferdinand, prince of the house of Bourbon, cousin of the king of Spain.

The former actress, who recently divorced William E. Corey, former United States Steel head, refused to confirm or deny the reports in an interview with the United Press at the Ritz hotel.

"I never have confirmed reports of my engagement to Don Luies," said Mrs. Corey demurely, "and I've denied the rumors for months. Usually, I quietly deny them."

She idly stirred her second cup of breakfast coffee as she pondered upon the inscrutability of the future.

ACQUAINTED 15 YEARS

"One never knows what the future holds in store for one, does one?" she inquired. "I have known Don Luis for 15 years. I met him while I was on a honeymoon with Mr. Corey."

As if the mention of her recent husband's name had started an unexpected train of thought, she added hastily:

"Of course, my friendship for Don Luis had nothing to do with my divorce from Mr. Corey. But again, I say, one never knows; the future isn't revealed to us by clairvoyance."

Asked if soothsayers had not told her something recently, Mrs. Corey laughed and replied brightly:

"Well, perhaps they have."

"What about a possible reconciliation and re-marriage with Mr. Corey?" Mrs. Corey was asked.

"Yes, there was a chance of that some time ago," she answered.

"But I don't want to talk of that now. There is no chance of immediate reconciliation. Mr. Corey's in the United States. I'm over here; the situation is the same as when we were divorced—for the present, that is. But, I repeat, one never knows."

"You know the old saying about women's fancies?" smilingly.

BLACK STAYS WITH WHITE

ACCORDING to Paris you can't improve on the combination of black and white for style and dash. Here's a sport blouse of boldly printed silk combined with a skirt of white silk banded with black. A wide white scarf adds to the appearance as well as the comfort of the frock.

Notice this model carries a cane, as many of our smartest women are doing these days.

MEN'S CLASS BAN UETS

LEIPSIC — The Men's Bible class of the Methodist church will hold a Washington Birthday banquet Friday night, in the dining rooms of the church. The social committee of the class is in charge of arrangements. The Constant Workers' class of the Methodist Sunday school will serve the banquet. Prof. John Davison, Lima, dean of Ohio Northern university, Ada, will deliver his address on "Washington." Plates will be laid for more than 125 at the dinner.

Captain David Estell, U. S. Army instructor, Thursday night held annual inspection of Company G, 148th Infantry at the local barracks. Enlisted personnel fo 52 and two officers stood inspection.

"My Rheumatism is gone—"

There's glorious joy in knowing this:—that more Red-Blood-Cells stops Rheumatism, and that S.S.S. builds Blood-Cells!

"There are thousands of you men and women, just like myself, slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had

S.S.S. thoroughly rids the body of Rheumatic Impurities.

the wrong idea about rheumatism for 15 years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S.! Say what you will, I never knew such startling results were possible. Well, folks, besides knocking out my rheumatism it gave me back some of the strength I used to have way back! I've got a better color in my face, my appetite is dandy. I don't use my crutches any more. I'm walking around straight-up on two young legs!" S. S. S. makes people talk about themselves the way it builds up their strength. By building blood-cells it builds nerve strength for young folks who ought to have more, and for older people who have little. It stops pimples, boils, blackheads, eczema, chases away blood impurities. You can always rely on it. Start S. S. S. today for that rheumatism. You'll feel the difference shortly. S. S. S. is sold at all good drug stores. The large size is more economical.

"The fact that such betrayal is so rare is encouraging. That it occurs at all is most deplorable, but we must remember with gratitude the loyalty and fidelity during all the years and now of men whom we have entrusted with high office.

Expressing opposition to any move which would give congress the power to override the contemplated veto of legislation resting in the supreme court, Senator Spencer said they would permit "the overthrow in time of temporary excitement of every right upon which the government has rested for 150 years."

"It is a testing time in this nation," he said. "We are either a constitutional republic of free people or the playthings of passing fancies that may prevail an hour, but in that hour, alas, may destroy the foundation of justice and liberty."

ORPHANAGE IN OPERATION

Located at Chavaquac, 350 Miles South of Paris

NEW YORK—(Associated Press) A memorial in France to the Marquis de Lafayette, to perpetuate the memory of this famous Frenchman whose good works is the accomplishment in a period of four years of an American society known as the Lafayette Memorial, which has the support and cooperation of a large number of prominent French and American men and women. The memorial today is not a project, but a going concern, taking the form of a school and orphanage; a preventorium sanitarium, and finally a museum.

It is the purpose of the society to maintain the Chateau Lafayette, in central France as a permanent memorial to the marquis and to the memory of the allied heroes who were killed in the world war. It should become, members of the society say, an American national memorial like Mt. Vernon on the Potomac, the birthplace of George Washington.

The memorial is located in the old Lafayette chateau, at Chavagnac 50 miles south of Paris, where the marquis was born in 1757. This property, consisting of various buildings and 175 acres of land, has been acquired by the society. The chateau was the home of Lafayette's ancestors for centuries, and here the French hero of American independence grew up to early manhood. The building has been restored, where necessary, and made sound and solid thruout. New structures have been added to the group, and everything has been provided, in the way of modern improvements, for the health, comfort and proper education of the children cared for by the memorial. A modern water supply has been installed, and modern plumbing and sanitary equipment have been established in all the buildings, which are served by a modern sewage disposal plant. Electric light and central heating have been put in, and a modern dairy with a fine herd has been established to furnish the best milk and butter. Part of the domain has been modernized and expanded so as to afford the finest of farm products. A cobbler's shop has been created to make boots for the children, and there is a carpenter shop for estate repairs. Modern fire protection has been installed. There are baseball and football fields, tennis courts and a swimming pool.

In the school and preventorium, which house today a total of 250 children, war refugees and war orphans, the outdoor training of an American school is given. The youngsters are caught boxing, baseball, etc., and also receive a first-class training for the French baccalaureat examination. When they are old enough these boys will be sent out to receive training in the big businesses of America, such as the United States Steel Co., General Electric Company, etc. Forty of the boys in the school are French, 25 Russian, 25 Polish and ten Italian.

MEDICAL DIPLOMA SALE IS OBJECT OF WARFARE

CHICAGO — Protection of the public against incompetent physicians, and corrective measures concerning the alleged sale of medical diplomas and irregularities in state licensing boards, are among the principal topics for discussion at the congress on medical education, medical licensing, public health and hospitals, to be held here March 3-5. The congress is sponsored by the American Medical Association.

Medical education in America and Europe between 1909 and 1924 will be reviewed by Abraham Flexner, secretary of the general educational board, New York, who, in 1909, attracted wide attention when he presented his report on medical education up to that time.

Medical education and culture and public benefits from recent improvements, are subjects to be handled by Dean Stephen Rushmore of Tufts, and Dr. Henry S. Prichett, president, Carnegie Foundation for Teaching, New York.

The sessions on March 4 will be devoted particularly to the problem of protecting the public against incompetent physicians.

RECONSTRUCTION COSTLY

PRAIS — France had spent, up to Dec. 31 of last year, a total of 118,154,000,000 paper francs for the reconstruction of northern France and other accounts which, according to the Versailles treaty, should have been paid by Germany. France has received from Germany, to offset the

STILL SKATING [illegible] ESCANABA, Mich. (Special) — Charles Gagnon thinks he is the oldest professional skater in the world. He was born in Canada in 1851 and on next July 24 he'll be 73. He learned to skate at the age of eight and he hasn't missed a winter since.

Until he was 50, Gagnon was a speedster. Since that time he has spent the silver-blade seasons giving trick and fancy skating exhibitions and teaching skating in the ice rinks of the Upper Peninsula. But he says he is willing to enter a match race over a 5-mile course against any man of 70 or over in the world.

REBEL CHIEFTAIN CAPTURED

Subordinate Mexican Officer Takes Gen. Alvardo

MEXICO CITY — (Associated Press) — Gen Salvador, one of the principal rebel leaders in the west was been captured at Colima, according to a report given out by the war department.

The report which was forwarded by Gen Lazaro Cardenas, who has been raising volunteers to attack Colima, said Alvarado was taken by Crispiano Anzaldo, one of his subordinate officers who abandoned the revolutionary cause and submitted himself to the government's orders.

Gen Alvarado who was formerly governor of Yucatan, later secretary of the treasury during the provisional presidency of Adolfo de la Huerta, and was a candidate for the presidency when the rebellion broke out last December.

Other leaders, including Gen Ramires Garrido, were also captured.

Two rebel warships anchored at Manzanillo have surrendered, according to the advices from Gen. Cardenas, leaving the railroad open from Mexico City via Guadalajara to Manzanillo. One of the warships is the Progreso which assisted in the capture by the rebels of Salina Cruz and returned to Manzanillo when Salina Cruz was recaptured by the federals.

THEATRE BUILT IN 1731 DESTROYED BY FLAMES

NEUSTRELITZ, Mecklenburg — The former Neustrelitz court theatre, with a history dating back to 1731, recently was destroyed by fire. Nothing but the walls of the old building remain, but a movement has been started to erect a modern theatre.

The Neustrelitz court theatre was founded by the dukes of Mecklenburg who were known for their interest in artistic affairs. It was opened with performances by a troop of "ducal actors." The last of the Mecklenburg dukes, who was dethroned as a result of the revolution, took care of his theatre in a way that made it one of the best standard stages in Germany.

POLICE CHIEF RESIGNS

DOVER, Ohio — Police Chief Charles H. Reed resigned from office following a conference of city officials seeking to fix responsibility for conditions of which Dover citizens are sad to have complained. Mayor Robert announced the appointment of Patrolman Lahmers as acting chief, Reed's resignation taking immediate effect.

Now Comes Row As To When Is Groundhog Day

What was the official groundhog day for 1924 Was it Feb 2 or Feb 3?

Lima observed the first date with the report (not by eye witnesses) that Brer Groundhog emerged from his hole, looked over the cold gray horizon wagged his tail and scampered away — a sure sign of the end of winter.

Dan Leininger, Coldwater hunter-trapper, disputes the date, advancing Feb 3 as official groundhog day ever since 1900 when Brer Groundhog got mixed in his dates.

The year 1900 should have been a leap year with February having 29 days but leap year was not observed as the year was a century year not divisible by 400. This placed the little groundhog one day behind and ever since he has been observing Feb. 3 as his day, Leininger holds.

In 1910 while out hunting on Feb 2, Leininger watched a groundhog hole as the sun was shining brightly but the little weather prophet he says, did not come out. The next day was dark and dreary and a few days afterwards he saw fresh groundhog tracks in the snow and warm weather set in immediately afterwards.

Feb 3 this year was bright and the sun shone during the day while Feb 2 was dark. Leininger says the groundhog, mixed in his dates appeared on Feb 3, saw his shadow and went back into his hole. This is Leininger's reason for cold weather.

OFFICES CLOGGED WITH TELEGRAMS TO J. M. COX

MIAMI, Fla — Miami telegraph offices were clogged today with hundreds of telegrams to ex Governor James M Cox of Ohio, following announcement that he would permit his name to be used in the Ohio presidential primaries.

The message included an invitation to address the Kentucky legislature and to make a speech at Chicago at the dedication of the Wilson memorial this spring. Cox has not yet accepted any of the invitations.

Most of the telegrams were personal and extended best wishes.

Responding to a complaint from the vicinity of Pine st, between Kibby and Vine sts, that a number of boys were out in the middle of the street with their sleds and skates and hopping automobiles as they pass, Patrolman Ramsey arrested one lad, who was later turned over to the juvenile authorities. All the other boys escaped.

MELLON JUGGLES FIGURES, LEGION CHIEFTIAN SAYS

WINSTON SALEM, N C — Mellon juggles big figures and his business sends a few of its hoarded war profits to fight against the [illegible] of obligations which are pledged to us by the Republican party, John R Quinn national commander of the American Legion, declared here today in an address to American Legion representatives from southern states.

"Everyone except big business felt veterans compensation was an obligation that was owing" he said, adding that the railroads war time contractors and shipyard workers received large sums and civil service employes still receive bonuses.

Commander Quinn said President Harding was induced to veto the compensation bill by an astounding miscalculation."

FATHER, SON SHIFT MURDER BLAME

Each Says Other Killed Their Granddaughter, Daughter

YOUNGER MAN AWAITS TRIAL

Girl, 15, Found, Skull Crushed and Arm Broken

BY ALEXANDER HERMAN

BRIDGETON, N. J. — (Special) — The "eye for an eye" punishment of the most ancient law. An 82-year-old man ready to sacrifice the life of his son to avenge the death of his grandchild.

It's a tragedy of hate that has arisen in the wake of love turned stone-cold by murder. Its principals are:

Emma Dickson, 15, whose mutilated body was found on a road not far from her home, nine days after her disappearance last September.

Thompson Dickson, [illegible], the girl's father, now lodged in the county jail charged with her murder by his own father.

Benjamin Dickson, 82, whose five months' struggle between paternal love and conscience has brought him close to death's door.

The three lived together in a little house at Bricksboro, not far from the Millville high school. The men were caretakers of an estate of a wealthy Philadelphia lawyer.

One day the girl disappeared. More than a week later her body was found on a road between Elizabeth and Millville. Her skull had been crushed and her right arm broken.

The hub cap of an automobile was found nearby. The police believe that she had been taken for an auto ride and then beaten to death. An arrest was made. But the charges were then dropped.

Months went by. The authorities seemed stumped. Then one day the old grandfather sent for his pastor.

"I have been a christian all my life, and I hope to die one," he said. "For the past two weeks I have been so troubled that I wasn't able to sleep."

THE GRANDFATHER'S STORY

Then, according to the police, he told this story in detail:

"The night of the murder, Emma left home at 7 o'clock to go to a dairy half a mile away for milk. An hour passed and she did not return. The grapes she was cooking to make jelly began to burn.

"Her father became angry. He went out to look for her."

The grandfather, according to this story was in the house at the time. Suddenly, he says, he heard a scream. Then —

The old man became excited as he tried to continue.

"Take him away! Take him away! I'm afraid that he'll kill me, too," he [illegible].

[illegible] the detectives took him away [illegible] jail. There the younger Dickson has been lodged since Feb. 3. [illegible] he turned against his father [illegible] accused him of the crime. In a [illegible] statement he said:

"My old dad did the job. He was going to kill me, too, if he got the chance. He wanted the $1200 left to Emma, and was going to get me and my little girl out of the road. After he killed Emma there was nothing for me to do but help him get rid of her body."

THE SON'S RETORT

The men later confronted each other in Thompson's cell.

"I saw you thru the window," cried the old man. "You killed her. I say it if it's the last word I say."

"You are a liar," retorted the son. "Whoever says I did, killed her himself."

The old man went back to the home of his sister; the younger man went back to his cell.

And the little victim, once beloved by both, remains but an unpleasant memory to each.

HOTEL BELMONT SOLD

NEW YORK. — The Hotel Belmont, opposite Grand Central terminal, has been sold by the Interborough Rapid Transit Co. to the Park Avenue Operating Co. for a price understood to have been between $6,000,000 and $7,000,000. The new owners contemplate making an office building of the 21 story hotel.

Woman Circles U. S. In Saddle, Does It Alone

SPOKANE, Wash.—Miss Helen H. Thinglestad of Ione, Wash., recently completed a horseback circle tour of the continent that required between six and seven years of intermittent traveling. She made the entire journey alone.

Her expenses for the trip were met by working along the way, and stops of three months or more were made at various cities for the purpose.

Down the Pacific coast to Los Angeles and thence along the southern border to New Orleans, Miss Thinglestad and her four-footed companion made their way. They crossed the American desert in July by traveling at night. Thence they traveled north to Virginia and turned homeward thru Kansas, Colorado and Wyoming.

Miss Thinglestad crossed the continental divide six times during her travels, she said, and three times she encountered snow and three times it rained. She carried complete camping equipment and often relieved her horse's burden by walking considerable distances.

"A woman has nothing to fear, traveling alone," she said. "The people always were wonderfully kind to us. I usually camped near some farm house, for I had to procure food for my horse."

A physician says that eventually a man will live to the age of 2,000. More trouble; for, of course, women will tag right along with him.

NOTED PHYSICIAN OFFERS WAY TO GET QUICK, SAFE RELIEF

Prescribed Vegetable Syrup for Stomach Trouble, Colds, Headaches and Nervous, Upset Condition

BUILDS UP SYSTEM; INCREASES ENERGY

People in all walks of life who suffered from symptoms like those described above have found that it is easy to throw off these troubles and feel fine by toning up one vital organ of the body.

GIVES QUICK RELIEF

This organ is your liver! When working properly your liver purifies your blood, every drop of which filters through your liver every fifteen minutes. Also, your liver supplies secretions that are essential to proper digestion and nourishment and prevent constipation. But, when your liver becomes clogged and sluggish, how can it do these three things as Nature intended? The result is you often wake up feeling dull and tired and suffer frequently from one or more symptoms such as indigestion, sour stomach and gas, faulty movement of the bowels, coated tongue, poor complexion, sallowness, and a general run-down, nervous and upset condition.

SPECIAL TRIAL OFFER

Get quick relief! Take just a few spoonsful of Dr. Thacher's Liver and Blood Syrup after the next few meals to cleanse and tone your liver and help Nature build up your system. Notice the quick difference in the way you look, eat, sleep and feel. You will be completely satisfied; otherwise druggists are authorized to refund your money.

Dr. Thacher's Liver and Blood Syrup is sold by Butler's Drug Store, Green's Public Drug Store in Lima, and by leading druggists in every city and town. adv.

AWARDS MADE IN LUSITANIA CASE

Germany Must Pay $1,700,000 for American Losses

DECISION GIVEN BY UMPIRE

57 Claims, Growing Out of Disaster, Passed on

WASHINGTON — (Associated Press) — The principles which will guide awards on all claims arising from the sinking of the Lusitania are set forth in a decision handed down by Judge Edwin B. Parker, umpire of the German-American mixed claims commission, disposing of 57 cases.

Under Judge Parker's decision, which was made public late yesterday, the German government must pay about $1,700,000 in 88 separate awards to Americans for losses sustained thru death, injury, property damage or otherwise. Forty claims were denied. The 57 cases formed only the first group of claims decided, a disagreement between Chandler P. Anderson, the American commissioner, and Wilhelm Kiesselbach, the German commissioner, having placed them in the hands of the umpire.

Judge Parker based his decision in the death cases on losses to claimants only "insofar as such losses are susceptible of being measured by pecuniary standards," commenting that "mental suffering, to form the basis of recovery, must be real and actual, rather than purely sentimental and vague." The property loss awards carry five per cent interest dating from May 17, 1915, when the liner was sunk, and those involving death bear the same rate of interest from Nov. 1, 1923, when the commission's opinion determining the measure of damages was handed down.

DAMAGE CLAIMS SETTLED OUT OF COURT FOR $1,150

Two damage actions totaling $22,500 instituted against against Frank Anderson, E. High-st-rd, to recover for injuries incurred by Roberta Blodgett, 14, in West-st road June 30, 1923, have been dismissed in common pleas court.

An entry filed in probate court shows that a settlement of $1,150 made with Sarah Ellen Blodgett, guardian of the girl had previously been effected.

Roberta was hit by Anderson's car and partly paralyzed. She lay in a condition of coma, for several weeks, her speech being affected by the injury.

Piles

Cant Be Cured from the Outside

External treatments seldom cure Piles.

Nor do surgical operations.

The cause is inside—bad circulation.

The blood is stagnant, the veins flabby.

The bowel walls are weak, the parts almost dead.

To quickly and safely rid yourself of piles you must free the circulation—send a fresh current through stagnant pools. Internal treatment is the one safe method. Ointments and salves won't do it.

J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and tried it in 1000 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet, easy to take, and can always be found at Hunter's Drug stores, who will gladly refund the purchase price to any dissatisfied customer. adv

SOAKS RIGHT IN AND LIMBERS UP STIFF JOINTS

Pharmacists call it "Joint-Ease" because it is for Swollen, Sore, Painful, Creaky Joints Only

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts right in to make swollen, inflammed, creaky, pain racked joints as good as new.

They call this new and wonderful preparation "Joint Ease" because the medical man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need helpful attention.

So "Joint-Ease" is prepared only for people who have a swollen, painful, creaky, distorted or still joint, whether it be in knee, elbow, shoulder, ankle, neck or finger and whether it is caused by rheumatism or something else.

Of course, it can't help but quickly put an end to such superficial ailments as lumbago, neuralgia, neuritis, aching muscles, stitch in the side, crick in the neck or sore feet because of its penetrating action, but what it is really recommended for is joint ailments of any nature whatever.

Ask for a tube of "Joint-Ease." You can use it several times in one evening for quick results, because it goes right through the skin with only a few seconds rubbing. It surely is a swift penetrator and when it gets under the skin, it starts right in to clean up all joint trouble.

Green's Public Drug store, Hunter's Drug store, Argonne Drug store dispenses it daily for about 60 cents a tube, as do first class druggists everywhere.—Adv.

NOMINEES CHOSEN FOR SONS OF REVOLUTION

CINCINNATI—Roswell B. Burchard, former lieutenant-governor of Rhode Island, will be the principle speaker, at the anual dinner of the Ohio Society, Sons of the Revolution here tonight when officers for the ensuing year will be elected.

John D. Ege, president of the Union Central Life Insurance Co, is the nominee for president of the society. Other nominees chosen by the nominating committee include: Vice Presidents—George Henke Mead, Dayton; Wyllis Vincent Van Meter, Marietta, and John Ludlow Bushnell, Springfield; board of managers, Frank Day Hodgson, Columbus, and Charles Leonard Wood, Piqua. In the absence of President W. A. Sanders who is in New York attending a meeting of the general society as the general delegate from Ohio, John Gano Wright, a former president will be chairman of tonight's meeting.

CHICAGO CHIEF COMMENDS LONDON'S FIRE FIGHTERS

PEOPLE READ IN WINTERTIME

Average Circulation of Books at Library Takes Big Jump

People like to read more in winter months than in summer, according to the circulation reports of the Lima Public Library for both last year and the month of January.

The average daily circulation for January was 271, while the daily average for all of last year was 231. The decrease is due to the fact that fewer books are taken out during warm weather, thus lowering the average considerably.

A total of 1,838 volumes were added to the library last year, according to the report made by Miss Martha Gumble, librarian. With the addition there are now 16,000 volumes in the institution.

Circulation for the year amounted to 70,276 volumes, of which 51,361 were adult books and 18,915 books for children. The largest daily circulation was 439.

January's circulation report shows an increase of 200 volumes over the corresponding period last year. Last January 6,931 books were given out while 7,135 were circulated in the mont hjust past. One hundred and sixty books were added during January.

CHEF GETS FINE

$1,000 Penalty Imposed on George Dennis by Judge Poling

George Dennis, chef at the Manhattan restaurant on W. High-st, was fined $1,000 by Judge Neil R Poling in criminal court late Thursday. Dennis had previously pleaded guilty to the possession of intoxicating liquor violation of the law.

A. Conaway, manager of the same hotel who is under similar charges, has denied his guilt and will be tried March 6 at 1:30 p. m.

SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles Mentho Sulphur and use it like cold cream. Adv

MESSENGER, 50 YEARS IN SERVICE SEEKS PENSION

MANILA — Having served as a messenger in the court of first instance in Manila for 50 years, Pascual Ramos, a Filipino now 80 years old, believes he is entitled to a rest. He feels that he is too old and feeble to continue his duties and has asked for a pension. Accordingly, a bill has been introduced in the legislature to grant him $25 a month.

Pascual's service began under the Spanish regime more than a quarter of a century before American occupation. He then received eight pesos or $4 a month. When the courts were reorganized under American sovereignty his pay was increased to $10 a month and later to $25.

DOLL HOUSES ARE CITY'S HOBBY

Sketches in Collection Date Back to 16th Century

NUREMBURG — (Associated Press) — Descriptions of Queen Mary's doll house, which is to be exhibited for charity in London, have attracted wide attention among the master toy makers of Nuremberg. The house is said to be the most perfect structure of its kind ever put together and all available data concerning it has been assembled for future reference.

Sketches of many of the famous doll houses of history are on file here, some of them dating back to the 16th century. ne of the best known among those recorded here was that built at Amsterdam originally for Peter the Great. He is said to have agreed to pay the artist 10,000 gulden for the eight-room house, completely furnished, and with wax figures dressed in the fashion of the time.

When the work was finished the style of architecture did not suit the ruler and he refused to accept it or pay for the work. At a later date, however, the czar's ambassador to Holland purchased the house without Peter's knowledge and kept it many years, chiefly for the amusement of his guests. Upon the ambassador's departure from Holland the house was turned over to the Dutch government and now is one of the historical exhibits in the state museum at Amsterdam.

Perhaps the most famous doll house of all Europe in olden times was the property of Louis XVI. It was made entirely of silver and its completion required the services of many artists for years. In later years during reverses in France the royal doll house went into the melting pot and the silver was used to pay some of the ruler's debts.

After this date I will not be responsible for any debts contracted by any person other than myself.

M. P.'s Have Peg And Cubbyhole As Only Home

LONDON — The present session of parliament with its large number of new members, and the usual scramble for seats once again gives rise, to grumbles and wonderment why the famous old chamber is not rearranged to meet the needs of modern times.

Some 615 members are called by the electorate of the country to represent them in a house which has not accommodation for nearly that number, and even those obtaining seats thruout the session have little else to call their own except a hat peg and a small locker about three cubic feet.

In the actual chamber there is no provision for the papers of private members except a very narrow gully which runs along the benches so that those who want to speak have to gather their papers and notes and hug them.

The library is said to contain only parliamentary pape instead of useful reference books; the reading rooms are small as are those not apart for private secretaries of ministers and other leaders.

Considering the lack of accommodation, however, members, as a rule take it philosophically and grumbles are scarcely ever translated into actual complaints.

ELECTION OF DRY LEADER DEFENDED BY MINISTER

COLUMBUS—Arthur J. Davis election to the superintendency of the New York Anti-Saloon League to succeed William H. Anderson, was made without fear or favor to anyone because he was the best man available for the post.

This, in effect, was the answer today of Rev. Purley A Baker, national superintendent of the Anti-Saloon League, in reply to Rollin C. Everhart, who resigned Wednesday as the editor of the New York edition of the American Issue, after charging that election of Davis was "a triumph for the forces in sympathy with Anderson."

"Davis was appointed on his merits and record and the Anderson matter had nothing to do with the particular selection," Rev. Baker, who is ill and confined to a hospital here, declared.

72 Years Old, But Actively On Job

Railroad man attributes good health and strength to TANLAC.

Seventy-two years of age, but still in possession of the priceless boon of good health and actively on the job with the Central Vermont Railroad, where he has worked for 40 years, is the remarkable record of H. H Moore, 24 Messenger St, Albans, Vt., who attributes his present health and strength to the use of TANLAC.

"I have never in my life seen the equal of TANLAC," said Mr. Moore recently. "After spending a lot of money on things that proved worthless for stomach trouble of the most obstinate kind, TANLAC made me feel like an entirely different man. For nearly two years I had been gradually getting worse, and my strength and vitality had got so low it was hard for me to attend to my duties. Indigestion, constipation and nervousness made life miserable before I found TANLAC, but now my health is normal and I feel happy as I work. I shall always be grateful to TANLAC."

LIMA BEANE'S OPEN LETTERS

To My People

FRIENDS. Today we pay honor to the father of our country—the great Washington. In every nook and corner of this broad land Americans will pay tribute to the man who did much to give us liberty and helped lay the foundation for the greatest nation on the face of the globe, altho one of the youngest. School children will hold special programs just as they have for years and years and as they will for the years to come.

All this is fitting. Whenever we lose sight of the men who have contributed to our greatness as a nation, just then are we beginning to slip backward. Let us hope that we shall never forget the names of Washington, Lincoln, Wilson and many others.

LIMA BEANE

To Manager Bingham

DEAR GENERAL: When did you say Main-st would be paved?

LIMA BEANE

o o o

To James M. Cox

DEAR JIM: I am particularly well pleased that you have allowed your name to be used in connection with the presidential primary in Ohio. You will carry the old Buckeye state just as you have carried it before, I am certain.

I am firmly convinced that you would make us a good president. I would be glad to see you get the nomination at the New York convention and then receive the highest honor at the hands of your countrymen. Here's luck.

LIMA BEANE

o o o

To My Policemen

DEAR BOYS: You will find me at your annual ball tonight all ready for a big time. This "hop" of yours has become a fixture here and you deserve credit for putting it on. When anyone asks me which I enjoy the most, the firemen's or the policeman's ball, I can honestly say they both are the best ever. On with the dance.

LIMA BEANE

o o o

To Property Owners

CITIZENS: Well, well, so it took a padlock law to start a "moving day" around town. The city will surely benefit thru the elimination of some of the "sore spots." To my mind, much of the bootlegging would be eliminated if more of the property owners would keep tab on their tenants.

LIMA BEANE

o o o

To Attorney General Daugherty

DEAR HARRY: Ohio expects you to do the right thing. I have heard a great deal about this oil business and I have seen your name connected with it. I see headlines that you will resign and that you will be kicked out. I hate to see a Buckeye go down under such circumstances. For the sake of the old commonwealth as well as for old time sake when I used to be able to step right up and say "Hello, Harry," I'm hoping it is all a mistake.

LIMA BEANE

o o o

To Pedestrians

DEAR FOLKS: I'm going to ask you to quit cutting corners and tramping across the parkway between curbing and sidewalks. I notice a number of places about the city where many of you have beaten paths across lawns to save a few steps. By the time snow is gone you will be truly entrenched in the habit if you don't watch yourselves. The paths you are making are beating down the grass and making it hard for the lawns to get a start in the spring. I don't want you to spoil my grass and I don't think you want anyone spoiling yours and I'm sure your neighbors don't want you to spoil theirs.

LIMA BEANE

o o o

To Library Officials

DEAR FOLKS: Many new books are greeting me on my visits to your, and our, institution. This is mighty fine for the many who are constanly scouring the shelves for the latest development in the various arts and sciences. The books on business topics donated by Lima business men are worth while and should prove both interesting and instructive to my boys and girls and to their parents.

LIMA BEANE

o o o

To Samuel Berry

DEAR SIR: I note that you have been serving the city of Lima for more than 50 years. I congratulate you on your period of faithful service. Fifty years is a long time as human calculations go for a man to work for one institution especially in these days of restless shifting about. It is my wishing that the community may find some way other than by congratulations of showing its appreciation.

LIMA BEANE

o o o

To Property Owners

DEAR FRIENDS: Some of you have been negligent about removing ice from your sidewalks. Beware of the chief and his coppers!

LIMA BEANE

o o o

To Dr. Felix E. Held

DEAR DOCTOR: Your talk on cooperation between the employer and employe at the Y. W. C. A. federation meeting Wednesday evening was mighty interesting. Lima business men and women have learned this lesson to a remarkable degree and will be glad to testify in its behalf. I am sure my people will benefit greatly from your talk. Come again.

LIMA BEANE

o o o

To Delphos Kiwanians

BOOSTERS: Your plans for the raising of $2,000 for a community park surely interest me. There is nothing like a park where the people of the city and their guests can gather and enjoy themselves during the summer months. Your swimming pool is something for my people here to envy and I know your present plans will be carried out successfully.

LIMA BEANE

o o o

To Motorists

FRIENDS: I have seen several of you stop lately and pick up wayfarers who were battling the elements afoot. It's a good idea and I commend you for it but I would like to see more of you do it. I would like you especially to give a lift to the workman who has a long way to go to his place of employment. Think back to the days when you were in his place and use the Golden Rule.

LIMA BEANE

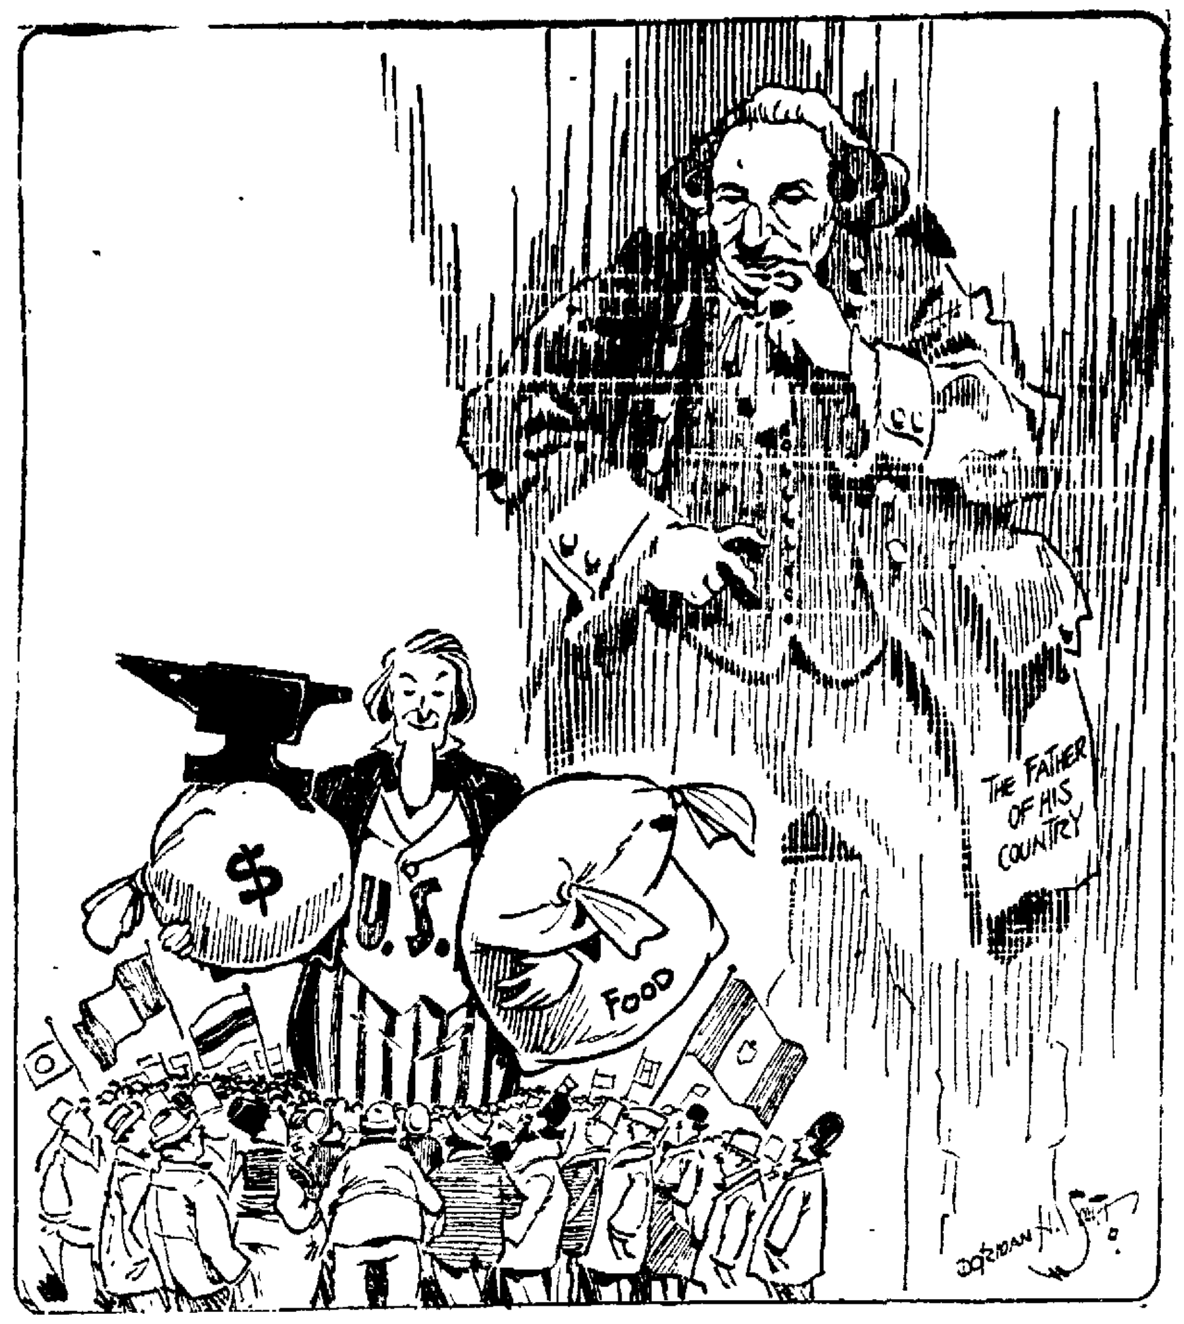

o o o

To My Firemen

BUDDIES: That new 1,000 gallon pumper will sure be great stuff. It will be a great help to you in fighting fires and will reach to the benefit of property owners in greater protection. I'll be watching for it to make its first run while I would like to see it work, I hope it doesn't have to for a long time.

LUCKY FOR US

Many physicians formerly believed that fats or oils were absorbed to a very limited extent thru the unbroken skin. They based that belief on the unquestionable systemic effect obtained from mercury ointment inunctions. But as we know now, they were in error. The fat (lard) in the ointment merely serves to "extinguish" the mercury, that is, it aids in subdivision of the mercury into exceedingly minute particles.

Several other very volatile substances produce systemic effects when applied or rubbed upon the unbroken skin, particularly chloroform, ether, iodine, turpentine guaiacol, the oils or essences of wintergreen, peppermint and other aromatics, camphor, ammonia, menthol and other more or less familiar ingredients of liniments and balms. In every instance any systemic effect from such applications is produced by inhalation of the volatized substance.

It scarcely seems necessary to add that no nutrient is absorbed by the skin. The one tradition or custom which may seem to suggest the contrary is that of applying olive oil or cod liver oil to feeble infants, sometimes a valuable aid in sustaining the vitality of the infant. The benefits accruing from these oil rubs, however are attributable to the preservation of the heat of the body by an oil coating (oil being a poor or slow conductor of heat) and the aid given the feeble circulation by the massage. There is no ground whatever for assuming that the infant derives any nutrition from the oil applied.

In short our hide is about as impervious as the elephant's and very lucky it is for us that we do not absorb the many solid, liquid or gaseous poisons with which we come into contact every day. Better, I think, to worry along thru life than to go to an early grave worrying about all the dread poisons we should have to worry about if we accepted the favorite notion about the permeability, from the outside looking in, of this much misunderstood protective integument which we so recklessly abuse.

The curious, thoughtful, inquisitive reader—of which class I hope I have a few—may possibly wonder how the physiological truth about the way mercury ointment inunctions affect the system was proved. Well, it was simple enough. When such inunctions are prescribed it is customary to vary the region to which the ointment is applied from day to day, on the flank today, on the back tomorrow, on the thigh another day, etc. So they took a healthy subject and put him beside a nice little cottage with his leg thrust in thru an opening into the cottage. Then they gave his leg a thoro inunction. All the while the man was breathing nice pure open air. And no matter how much mercury ointment they applied nor how thoroly they applied it, the man didn't absorb even a teenty little bit.

The man bent on "building up" some portion of his body by means of external applications is about as effectually shut off from the physiological truth as was the subject of the cottage test from the fumes of mercury all that frenzied inunction within the cottage raised from the impervious calf.

Don't throw away your liniment or analgesic balm just because you've listened to my little lecture on physiology. The old faves are just as good and comforting as ever, even if we can smile at the absurd notion that they "pen trat" and "take holt" of the trouble under the hide.

GEORGE WASHINGTON

BY BERTON BRALEY

"SOME Man!" When all is said and done
And written of George Washington,
That common argot of the street
Brings forth a picture more complete
Than phrases by word-weavers spun.

SOME Man! Great-hearted, great of frame,
In triumph and defeat the same,
Who mastered first himself, and then
Mastered and served his fellow men,
Leaving to Time the thought of fame.

SOME Man! Because he went his way
Wearing his courage like a shield,
Great in the council or the field,
A whole world thunders forth today,
"SOME MAN!"

Away to the brave sunshine, some afoot and some a-horse back with luggage and odd parcels, to the dock. Where our six little playmates soon to take passage for the once land of freedom. And they all agog at the news, that one, Flo Leeds, of greate newspaper divorce fame is to be a fellow sailor.

* * *

We not allowed on board, did stand about forlornly, 'til the gang plank swung to, the last bugle blew, greate anchor was weighed and the good ship, Fort St. George, steamed slowly out of the harbor. We, waving frantically in answer to the six fluttering hankies. And straining eyes for a last glimpse of the fine ... half dozen travelling companions for which one could ever wish.

* * *

Then, Jack and I slowly afoot to the hotel, cheering each other with words of the days ahead of weather and sunshine and nothing else. We will miss our gang. Said gang having all written a "Jack" except Mary and she wouldn't, have left me nary a stick nor stone, to describe. Every beauty of nature or the flesh, every personage, foreign or native, every pilgrimage, being dutifully transcribed. So, I at a loss am left only the water, which is horrible, being half salt half soft, but have never discovered the soft half, and the laundries, which in consequence of the water, are as bad. And in addition, no dry cleaners.

* * *

Luckily, this is a clean little spot and we can't accumulate much dirt but oh, for tubs, both laundry and bath, full of hot, sudsy rain water. And then the flies, but I'll spare you. Just think of last summer, and no screens, and you'll known what I mean.

Less Planting by Farmers Likely to Bring Shortage

BERLIN — (United Press) — American officials here believe that Germans temporarily return to normalcy is dangerously liable to be followed by a terrible smash.

Some of these authorities on whom the American government relies for its information as to German conditions foresee that an era of starvation—even in the agricultural communities — can ensue. [illegible] is very pessimistic. They fear that unless an earlier reparations settlement comes, conditions [illegible] to the famine in the Wolga district will arise within the German farming provinces.

Farmers, they fear, may plant less for the next harvest than [illegible] hitherto done. Such a [illegible] will naturally bring with [illegible] a famine in the cities, too, as Germany never has been able to produce enough grains and meats for her populace.

At the moment, Germany's visible supply of meats and grains is [illegible] large. The food [illegible] crammed to overflowing [illegible] plenty of the land.

[illegible] is explained, this plentifulness is [illegible] a dumping process on [illegible] big land owners. For [illegible] held back their wares. [illegible] not care to accept falling [illegible].

THE MARKET FLOODED

With the introduction of the [illegible] flooded the markets with their goods. But they [illegible] much cattle, it was claimed.

[illegible] of cattle and grain on [illegible] markets is destined—[illegible] opinion of American officials—to lead to a serious collapse probably only a few months hence. The reason for this excessive slaughter of cattle lies in the [illegible] landlords were compelled to gather hastily money for [illegible] taxes.

[illegible], however, that the [illegible] will reach a point where [illegible] there is no profit for [illegible] that instead their [illegible] eaten up by too heavy tax burdens.

[illegible] reach this point, it is then feared that they will adopt the [illegible] Russian peasants, [illegible] planting of less acreage [illegible] slaughter of fewer cattle. [illegible] of such a policy [illegible] catastrophal.

The [illegible] is now thoroly stable. The nation has confidence [illegible]. But those who delve beneath [illegible] realize that it is only a [illegible] currency and that a stable gold money must be introduced. Moreover, an excess of exports over imports and an excess of state income over outgo must be achieved if actual stability of currency and conditions is to be had in [illegible] Europe.

American officials have confided to callers their pessimism over the prospects of a satisfactory reparations solution. Both the American and German authorities anticipate [illegible] General Dawes and his assistants will make drastic recommendations which if adopted by France, would lead to a healing of the German economic situation.

But these same officials make little secret of their fears that Poincare will sabotage the findings. They look back upon the work of the Wirth experts and recall that Poincare ditched those recommendations.

The [illegible] there is perhaps more [illegible] France now than there [illegible]. The fall of the franc has caused a certain uneasiness in France. But they estimate that the gulf between French finances and French politics is too great to permit of a real settlement of the reparations problem now.

The gloom of the above cited authorities is not shared, however, in all German business circles. In many quarters there is an almost [illegible] optimism as to the future. And there certainly is full confidence in the rentenmark. The pop

CHURCH LEADER DEPLORES MODERN TREND OF YOUTH

CHICAGO — One phase of what has been called the "revolt of youth" today may be truthfully called the "collapse of restraint," according to Dr. W. S. Bovard, corresponding secretary of the board of Sunday schools of the Methodist Episcopal church.

"Parents have almost quit raising their children; teachers wear no badge of authority, and society in general refuses to train up children in the way they should go," Dr. Bovard asserts. "Even moral distinctions are denied if they offer the slightest barrier to the completest satisfaction of life's many appetites.

"Any hesitation to follow one's natural instincts to the fullest is branded as cowardice or hypocrisy. This teaching is finding its way into the thinking and living of our day.

"In this critical transition of authority it is our solemn duty to arouse the teaching capacity and kindle to a flame the spiritual devotion of the church in order that the on-coming generation may have an adequate personal experience of God."

HOME MADE COUGH MIXTURE CONSIDERED BEST

Spreads Over Membrane, Soothes, Heals and Stops Cough Almost Instantly.

Costs But a Trifle

Make your own cough syrup in two minutes at home if you want the best.

Simple coughs, or stubborn coughs, it doesn't matter which, this home made mixture will stop them quicker than any expensive cough syrup you can buy ready made.

It's fine for chest colds too and for acute nasal catarrh.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

And remember—any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin to drink soft water in quantities, also get about four ounces of Jad Salts from any reliable pharmacist and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.—Adv.

World Soldier Finds Quiet On American Ranch

SHERIDAN, Wyo. — Nick Wildt, a native of Siberia, has entered a reposeful phase of an adventurous career by taking up a homestead on a Wyoming ranch.

Wildt was drafted into the Russian army at the tender age of 9. At 17 he was a Cossack trooper. He fought at Port Arthur and in three other major engagements of the Russo-Japanese war.

In 1908 he was assigned to the late czar's personal bodyguard, and remained in this service in St. Petersburg for six years. In August, 1914, he took part in the first battle of the Russo-German war on the eastern front.

Wildt was wounded at Posen and taken prisoner, but finally escaped from Hamburg on a British submarine. He made his way to the United States in 1915, but returned to France with the American army two years later. He fought in six more engagements and was wounded as many times..

Wildt returned recently from Honolulu where he completed his enlistment in the American army. He wears eight decorations, several of them bestowed by the czar.

CLUB PROGRAM IS PLEASING TO MANY

THE "All-American" program given by the members of the Women's Music club at their regular matinee recital at Memorial hall on Thursday was most enthusiastically received. Each number was delightful and the artists who appeared on the program as well as the women who arranged it, are to be highly complimented.

The stage was particularly attractive in its patriotic appointments. Large American flags were used and a portrait of George Washington occupied a prominent place on the stage. As an opening number, the audience sang "America" led by Mrs. Minor Keltner dressed as Martha Washington. Mrs. Harold P. Adams [illegible] an intensely interesting talk on the Ideals of America. [illegible] Mrs. Adams spoke of the [illegible] different phases of music [illegible] various composers of [illegible].

[illegible] "The Heart of [illegible]" by [illegible] was sung by Mr. [illegible] [illegible] lovely. Mrs. [illegible] "Its Question," "Before Her Mirror," "In the Rose Garden" and "At the Masque." Mrs. R. O. Woods sang "Today and Tomorrow" [illegible] with the violin obligato played by Mr. G. C. Dunifon.

[illegible] played two violin solos, "From a Wigwam" by Burleigh and "Serenade" by Victor Herbert.

The final number of the program, Litz's "Concerto No. 1" played by Miss Leona Feltz was unusually well received. Miss Feltz played the four movement (a) Allegro maestoso (b) Quasi adagio (c) Allegretto vivace and (d) Allegro marziale animato. Accompanying her were Mr. Andrew Dimond, second piano; Mrs. Gail Dunifon, first violin; Miss Aileen Scott, second violin; Charles Bishop, viola and Fred Kocher, cello.

Miss Geraldine Evans did splendid work as the piano accompanist for the afternoon.

Good Manners

The best time to say upon being introduced is start a conversation such as "Mr. Smith? Wasn't that your sister I met here only yesterday?" And so on. But the regular and formal form of acknowledgement is to say "How do you do?"

Leonard Euman

Prominent Man tells how he was relieved of Kidney Trouble and Backache

New Lexington, Ohio—"I was troubled with my kidneys. The excretion was voided drop by drop with severe pain and constant desire. I also had pain in my back under my lower ribs and in my sides. I was this way for over a week. I bought a bottle of Dr. Pierce's Anuric Tablets which benefited me greatly. After using two bottles I was able to work again. I shall always praise 'Anuric' to anyone suffering from backache or any kidney complaint that can be cured by medicine, for the Anuric Tablets are the best that money can buy."—Leonard Euman, 214 High St.

Realizing the great need for an effective home remedy to correct kidney troubles in their early stages, Dr. Pierce put his staff of skilled physicians and chemists to work on the problem. In time they worked out this ideal formula, which is called "An-uric" and now sold by all druggists. If you desire a trial package send 10c to Dr. Pierce Invalids Hotel in Buffalo, N. Y.

FORTUNE'S FOOL

BEGIN HERE TODAY

Colonel Holles, soldier and adventurer, returns to England, the land of his birth, when war is declared with Holland. He comes to lodge with Martha Quinn, wealthy hostess of the Paul's Head, in Paul's Yard, London.

It is dangerous for the colonel to secure a commission in the English army because the name of Randal Holles, father of the colonel, is on the warrant for the execution of the late king.

His Grace of Albemarle, old friend of the colonel, promises to try to secure for Holles a commission. Martha Quinn falls victim to the charms of the colonel and proposes marriage to him. Holles refuses her offer. The dreaded plague is spreading rapidly in London and on the streets the colonel sees a victim.

NOW GO ON WITH THE STORY

As Holles perceiving here no more than a sick man, continued his advance, a voice from the retreating crowd shouted a warning to him.

"Have a care, sir! Have a care! He may be stricken with the plague."

The Colonel checked, involuntarily arrested by the horror that the very word inspired. And then he beheld a stoutish, elderly man in a heavy wig, plainly but scrupulously dressed in black, whose round countenance gathered a singularly owlish expression from a pair of horn-rimmed spectacles, walk calmly forward to the stricken citizen. A moment he stood beside him looking down; then he turned to beckon a couple of burly fellows who had the appearance and carried the staves of billmen. From his pocket the sturdy gentleman in black produced a kerchief upon which he sprinkled something from a phial. Holding the former to his nostrils with his left hand, he knelt down beside the sufferer, and quietly set himself to unfasten the man's doublet.

Observing him, the Colonel admired his quiet courage, and thence took shame at his own fear for his utterly worthless life. Resolutely putting it from him he went forward to join that little group.

One of the billmen was pointing out to the other a purple tumid patch at the base of the sufferer's throat. His eyes were round, his face grave, and his voice came hushed and startled.

"See the tokens!" he said to his companion.

At that the doctor spoke, addressing Holles.

"You would do well not to approach more closely, sir."

"It is . . . the plague?" quoth Holles in a quiet voice.

The other nodded, pointing to the purple patch. "The tokens are very plain to see," he said. "I beg, sir, that you will go." And on that he once more held the handkerchief to his mouth and nostrils, and turned his shoulder upon the Colonel.

Holles withdrew as he was bidden, moving slowly and thoughtfully, struck by the first sight of the plague at work upon a fellow-creature. As he approached the edges of the crowd, which, keeping its distance, yet stood at gaze as crowds will, he observed that men shrank back from him as if he were himself already tainted.

A single thing beheld impresses us more deeply than twenty such things described to us by others. Hitherto these London citizens had treated with levity the matter of the plague. Not ten minutes ago they had been deriding and pelting one who had preached repentance and warned them of the anger of Heaven launched upon them. And then suddenly, like a bolt from the blue, had come the stroke that had felled one of them low, to freeze their derision and fill their hearts with terror by giving them a sight of this thing which hitherto they had but heard report of.

HE CRASHED THE TANKARD DOWN AND CAME TO HIS FEET.

The Colonel stalked on, reflecting that this event in Paul's Yard had done more proselytizing for the cause of the Commonwealth than a score of advocates could have accomplished. It was very well, he thought. It was a sign. And if anything had been wanting to clinch his decision to cast in his lot with Tucker, this supplied it.

Fatigue to quench the prodigious thirst engendered by his long walk during the sweltering heat, and then to confide to Tucker and Rathbone to offer his sword to the revolutionaries.

As he entered the common room, Mrs. Quinn turned from a group of citizens with whom she was standing to talk to follow him with her eyes, her lips compressed, as he passed on into his own little parlor, at the back. A moment later she went after him.

"What may be your pleasure, Colonel?" she demanded forbiddingly.

"A draught of ale if I deserve your charity," quoth he.

She went off in silence, and returned with a tankard, which she placed upon the table before him.

"You'll have made your plans to leave my house today as we settled it last night," said she between question and assertion.

He pondered, pursing his lips a little. "I'll remove myself to the Bird in Hand in the Yard this afternoon," said he.

"The Bird in Hand!" A slight upward inflection of her voice marked her disdain of that hostelry, which, indeed, was but a poor sort of tavern.

There was something portentous in her utterance. She came forward to the table and leaned heavily forward upon it. Her expression and attitude were calculated to leave him in no doubt that this woman, who had been attracted to him hitherto, was now his declared enemy. "My house," she said, "is a respectable house, and I mean to keep it so. I want no traitors here, to get my birds and the like."

"You're mad," he said with conviction.

"No, I'm not mad, nor a fool neither, master rebel. A man's to be known by the company he keeps. Birds of a feather flock together as the saying goes. And how should you be other than a traitor that was friends with traitors."

He crashed the tankard down upon the board, and came to his feet.

"Sdeath, woman! Will you tell me what you mean?" he roared, his anger tempered by uneasiness. "What traitors have I been close with?"

"What traitors, do you say?" She sneered a little. "What of your friend Danvers, that's being sought at this moment by the men from Bow Street?"

He was instantly relieved. "Danvers?" he echoed. "My friend Danvers? Why, I have no such friend. I never even heard his name before."

Then she was terribly derisive now. "And maybe you've never heard the names of his lieutenants neither—of Tucker and of Rathbone, that was with you no later than yesterday as I can swear. Two traitors that was arrested this morning, along of a dozen others, for conspiring to bring down the Commonwealth. Oh, a scoundrelly plot—to murder the King, set the Tower, and burn the City, no less."

It was like a blow between the eyes. "Arrested!" he gasped, his jaw dropping, his face startled. "Tucker and Rathbone arrested, do you say? Woman, you lie!"

She laughed again, evilly mocking. "Step out into Paul's Yard and the first man you meet of the arrest made in Cheapside just before noon and of the hunt that is going on this minute for Danvers, their leader, and others who was mixed up in this wicked plot. And I don't doubt some one a-hunting here. I don't want my house named for a resort of traitors, as you've made it, taking advantage of me that I was willing to protect me, and all the while deceiving me with your fine speech. If it wasn't for that, I'd inform the Justices myself and you may be thankful that I want to keep the good name of my house. And that's the only reason for my silence. But you'll go hence. I'll think better of it yet."

He picked up the empty tankard, and reached the door before he could find his numbed brain to answer her. On the threshold she turned.

"Settle your score presently," she said. "When you've settled it I'll look and quit." She went out, slamming the door.

It was a small thing compared with that terrible menace of treason. Let him be denounced for association with Tucker and there would be no mercy for the son of Randal Holles the Regicide. His parentage and antecedents would supply the crowning evidence.

And yet the score, whilst a comparatively negligible evil, was immediate, and therefore gave him at the moment the greater concern.

He knew that it would be heavy, and he knew that the balance of his purse was utterly inadequate to meet it. Yet unless it were met he knew that Mrs. Quinn would show him no mercy; and this fresh threat of bringing him into association with Tucker on the very eve of the conspirator's arrest, placed him in the power of Mrs. Quinn to a degree that did not bear considering.

Presently he beheld him presently, arrayed once more in the shabby garments he had thought to have discarded forever, emerging from the house carrying a bundle that contained his finery, and making his way to the shops in Paternoster Row where it had been so lately and so jubilantly acquired.

Here he discovered that there is a world of difference between the values offered to a seller and to a buyer.

Ten pounds was all that he could raise on gear for which a few hours ago he had paid close upon thirty.

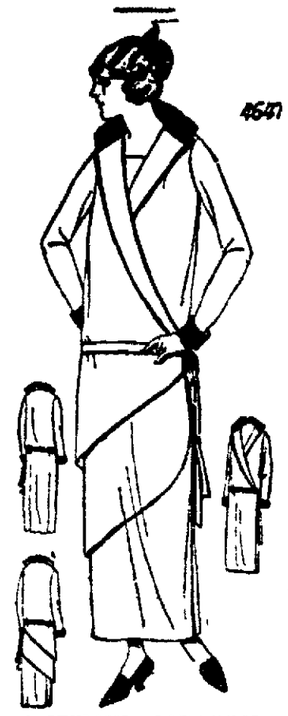

Back to the Paul's Head went Colonel Holles to find his hostess awaiting him with the score. And the sight of the latter turned him almost sick.

He marveled at the prodigious amount of Canary and ale that he had consumed during those weeks. Irrelevantly he fell to considering that this very costly thirst of his was the result of a long sojourn in the Netherlands, where the habit of copious drinking is commonplace. Then he came back to the main consideration, which was that the total exceeded twenty pounds by a prodigious sum.

He raised eyes that, despite him, were haggard and betraying from those terrifying figures, and met that baleful glance of the lady who, because she could not be his wife, was now his relentless enemy.

THE TANGLE

An Intimate Story of Innermost Emotions Revealed in Private Letters

LETTER FROM LESLIE PRESCOTT TO BEATRICE GRIMSHAW:

MY DEAR BEE.

I saw Dick Summers yesterday and had a long talk with him. He told me you had broken your engagement with him. He seemed genuinely sorry, but I had seen him just a few hours before hovering over Paula Perier, and I knew you had sensed at least for the moment his interest had been transferred to her.

I don't believe he loves her, Bee, but she is entirely different from any other woman he has ever known. Because of this she fascinates him.

He spoke of you most tenderly. He said you were the only woman on earth who seemed to understand. He told me you knew him better than he knew himself and he felt something had gone out of his life he would always miss.

Isn't it strange, Bee? A man longs for the woman he does not have and does not appreciate the woman he gets. This may happen, even when he has changed from one woman to another and back again. I believe already that Dick Summers is growing a little tired of Paula Perier and wishing for you.

He misses your common sense, my dear, and while common sense may not be quite as exhilarating as the other five senses, it is much better thing to live with in the long run.

I expect you want to know what kind of a girl Paula Perier is. Truly I like her very, very much. She gives me the impression of a woman who has had much experience and who has suffered greatly. She seems much interested in all women. She made a splendid impression upon every one whom she met in this town. Even those who went to scoff remained to praise her remarkable beauty and gentleness.

She came the next day to my house and I have never seen a woman who was so perfectly crazy over children. She would not let little Jack out of her arms one moment while she was with me, and most of the time her eyes were filled with tears.

She acted so strangely that I said to her, "My dear, if you had been a married woman, I should have thought you had lost a child."

I felt rather queer when I said this because some things I had heard started me on the suspicion that Jack was Paula's child. Perhaps that was the reason why I rather hated to see him in her arms, and why I had a feeling of triumph when he held out his little hands to me, altho she coaxed him in her prettiest manner to say.

"Muvver, Muvver," he said. It was a great surprise. It was the first time my baby had ever spoken a word that could be understood. I snatched him away from her and covered his little mouth with kisses. She stood as tho carven in stone.

"That's the first time he has ever spoken a word," I explained. "He called me mother."

"But you're not his mother," she said quietly, too quietly to be perfectly natural.

"Yes, I am," I answered, hugging him to my breast. "He has been legally adopted and no one can take him from me."

"I must go," she said abruptly. "I have already stayed too long."

QUAKES WILL BE FORECAST

Prediction Made by California Observatory Director

FORETOLD BY SUNSPOTS

Warnings of Approach of Tremblers to be Given

SANTA CLARA, Cal.—(Associated Press)—Earthquakes not only will be predicted in the future, but actually have been forecast in the past, said Father Jerome S. Ricard, S. J., director of the University of Santa Clara observatory, in answer to an assertion made in Washington recently by Dr. Thomas A. Jagger, Jr., government scientist, that continued study of seismological data will enable scientists to send out warnings of the approach of tremblors.

Father Ricard, noted as a weather prophet, is known as "the Padre of the Rains" and his theory of the relation of sun-spots to the weather has attracted wide attention.

"Earthquakes," he contended, "were first predicted by Marchand, a Frenchman, 25 years ago, by means of sun-spots. Unfortunately he died without perfecting his system, and as usual his idea was greatly ridiculed.

IDEA TESTED

"We took up the same idea here at Santa Clara and tested it until 1914. Our findings were that a sun-spot crossing the central meridian, or happening in the vicinity, east or west, always synchronized with accounts of earthquakes somewhere on the globe given out by the press. Professor Albert Porta, of this observatory, became imbued with the findings and continued the study until his death last year."

Professor Porta's death determined Father Ricard to resume the study of predicting earthquakes.

Of the attitude of the public and even of the scientific world toward the theory advanced by Marchand, the Jesuit astronomer said: "It is hard for the layman, professed physicist tho he be, to see a casual nexus, or connection, between sun-spots and earthquakes, or sun-spots and weather. But this proves only the limitation of the human mind and its great ignorance, even among scientists."

According to Father Ricard, Marchand was not the only astronomer to see the relation between earthquakes and sun-spots. Some time before 1900 Hugh Clements in London held firmly that earthquakes were caused by the joint action of the sun and the moon. On this idea Clements explained the great earthquakes, particularly the disastrous Lisbon tremblor.

Father Ricard also announced that he had begun the study of the possible relation of the moon to the direction of storms. If it is found, he explained, that the moon has influence on atmospheric tides capable of inducing barometric rises and falls along certain lines of the earth, the new study should aid in long-range forecasting.

RUMANIA FORSEES END OF OIL EXPORT INDUSTRY

BUCHAREST — The days are gone when gasoline could be purchased in Rumania for the equivalent of ten cents a gallon, a price that prevailed all thru the year 1923. The new petroleum law permits local oil companies to charge world market prices for oil sold to the domestic trade; the old law compelled them to sell much under these quotations. The purpose of the change is to bring to the oil companies sufficient profits to permit them to extend their operations to new and unproved fields.

The production of crude oil in Rumania is increasing. Last year it was 10,500,000 barrels (of 42 gallon each), and 8,000,000 in 1921. Back in 1913 the total was 13,000,000 barrels.

The export of refined old products (crude oil may not be sent out of the country) was 3,000,000 barrels in 1922, as against 7,000,000 in 1913. The local market for refined products is increasing steadily, and if this condition continues, Rumania, in a few years, may cease to be an oil exporting country.

NOTED SPECIALIST AND HIS NEW GLAND PREPARATION PRAISED BY MULTITUDES

W. E. Jaxon And His Assistant Prepare to Meet Crowds In Hunter's Drug Store On Saturday

Wife of B. & O. Railroad Man Comes Out for Pepgen

Although Pepgen, the new gland medicine, now being introduced at Hunter's Drug Store by W. E. Jaxon and his assistant, Mr. Murray, has only been obtainable in Lima a short time, already hundreds of Lima people have told how they have been relieved of long standing ailments by its use.

The people of Lima are fortunate in having Mr. Jaxon here to explain Pepgen, said Mr. Hunter yesterday. He is the author of several well known books on "Health Preservation" and a scientist of high standing.

In an interview yesterday, Mr. Jaxon said: "The result of my investigation has convinced me that the most distressing and common diseases from which the people of this city are suffering are stomach and kidney derangements. The indoor worker is usually the worst sufferer. This is so in almost every manufacturing city.

"Stomach trouble is one of the most common causes of nervousness and under nourishment. Frequently the lungs become affected from malnutrition. The mental and physical state of stomach sufferers is indeed unfortunate and it is a surprise to know that numbers of people are suffering from this ailment when they believe something else is the cause of their ailment. Pepgen ha sa stimulating effect upon the glands that control digestion and that is one of the reasons why we have been able to obtain such remarkable results from its use.

The symptoms of stomach trouble, Mr. Jaxon gave as offensive breath, coated tongue, dizziness, sleeplessness, nervousness, headaches, depression of spirits, low vitality and a tendency to tire easily. He said kidney trouble is indicated when people complain of backache, swollen ankles, pains in the joints and rheumatic ills.

Pepgen seldom fails to correct these conditions.

Local Woman Out for Pepgen

Mrs. S. H. Hartsing of 1170 W. Wayne Street, whose husband has been connected with the B. & O. Railroad for forty-seven years, has found relief from the use of Pepgen.

"Before I began taking Pepgen," said Mrs. Hartsing, "I did not know what it was to get a sound night's sleep.

"My food would not digest properly. After my meals it would form in a lump right in the pit of my stomach. A gas would form and give me pains up around my heart.

"I became very sallow. I would have a dull pain right across my back all the time. Morning was when I felt worse. When it was time to get up I just felt exhausted. My tongue would be coated and I would have a dull headache.

"I began taking Pepgen about a month ago. It began to make me feel better almost right away. Now I am in better condition than I have been in at least five years. I had no idea any medicine could do the good it has done for me. I am continuing to take Pepgen for it is making me feel better every day. I am surely glad to recommend Pepgen to the people of Lima."

CAUTION: The genuine Pepgen is packed in a white, blue and gold carton and may be obtained in Lima only at The Hunter Drug Stores, 49 Public Square and Corner Main and Wayne Sts., and The Argonne Store. Pepgen agencies in nearby towns are:

Ada, E. A. Park; Beaverdam, Frank Huttinger; Sidney's Drug Store, Bluffton; S. E. Lewis, Columbus Grove; King & Stallcamp, Delphos; H. M. Lee, Kalida; Hector & Blue, Ottawa; Fryer's Pharmacy, Spencerville, O.; Hunter & Son, Wapakoneta. adv

READY FOR CHAIR, SAYS SLAYER

Florida Murderer of Parents, Sisters Near Collapse

UNDER WATCH OF GUARDS

Can't Believe in Life After Death, He Declares

ST. PETERSBURG, Fla.—(United Press)—Frank McDowel, 19-year-old slayer, was near collapse today, following confessions to the murders of his parents and his two sisters to atone for a sin of his own.

"I wish I could believe in a life after death," McDowel declared, as he said he was ready for the electric chair. "But I can't reconcile my beliefs with that theory. I believe in a race of supermen who will rule the earth soon and of whom I had hoped to be the first."

Prison guards kept constant watch over the fanatical youth who declared he had been commanded to pay penance for his "blasphemy" in fire, blood and water and had accomplished the first two methods of atonement when he had burned his two sisters to death a year ago in Decatur, Ga., and murdered his mother and father here February 19.

DROWNING PLANNED

After declaring in an interview that he had planned to complete the chain by drowning Miss Mary Bardsey, a childhood playmate, he had not seen for 15 years, next February 19, McDowel today said that it was himself who was to have drowned.

County authorities today were to ask a lunacy commission to examine the unusual youth who talks in one breath of his "blasphemy" against the "holy ghost" and denies faith in the Bible and religious beliefs.

McDowel, claiming to be a child prodigy, forged his entrance papers to George Washington University and then failed in his studies and was asked to leave school.

$30,000 WORTH OF JEWELRY IS STOLEN

TOLEDO — Jewelry, valued at $30,000 was reported stolen from the room of Charles Rauch, of Rauch Brothers, Cincinnati jewelry dealer, last night. The jewelry is said to have been taken from Rauch's room in a down town hotel, while he was attending a show. Detectives Havens and Rowan found Rauch's trunk jimmied open. There had been two locks, one had been forced open and the other opened with a key. A jimmy, wrapped in paper, was found under the bed. Boxes which contained jewelry, was scattered.

The Rauch robbery was the second big jewelry theft reported here within as many months. In December, F. W. Stearns, a Philadelphia jewelry salesman, was robbed of a sample case in the union station as he was buying a railroad ticket. Diamonds valued at $100,000 were taken.

REHABILITATION PROCEEDS SLOWLY IN SCOTLAND, EXPENSES EXCEED INCOME

LEEDS — The reason rehabilitation in this country is so slow, is that everyone both collectively and individually spends more than they can afford. This statement was made by Felix J. Blakemore recently in an address to the chamber of commerce here.

He said the board of trade returns for 1923 showed an adverse balance against this country of $1,060,570,000, indicating that while there had been a fall in the value of exports, the value of imports had increased and so depreciated the value of currency in foreign countries, causing a slight increase in the cost of living.

"How many people," he asked, "if they could be detached from present prejudices and could see thru the eyes of 1913, would be able to recognize or even reconcile the standard of living of pre-war days with that demanded at the present time.

"The theatre, music hall and cinema make a far greater demand upon personal expenditure than they did in 1913. Food luxuries at every meal are more common today than in pre-war days, an dit appears to be an undoubted fact that individually and nationally we are living above our income."

Blakemore asserted that unless all sections of the community were prepared to make some sacrifice and return to a more humble and less ostentatious method of living, the period necessary for the adjustment of the present economic difficulties would be greatly extended.

Mr. and Mrs. Rodney Lynch, of 543 S. Elizabeth-st, announce the birth of a ten pound daughter Thursday.

Matilda Long, daughter of Mrs. M. Long, of 125 1-2 S. Elizabeth-st, who underwent an operation at St. Rita's hospital two weeks ago for mastoid, is improved and was removed to her home Friday.

ALL SCHOOLS ARE ON HOLIDAY

Public Offices Closed; Stores and Factories Stay Open

Public and parochial schools were dismissed for the day, banks ceased activities, offices in the city and county buildings were closed and stock markets with closed doors observed Washington's birthday.

Factories continued operations and business houses remaind open but mail deliveries were halted during the day. Mail was collected and a number of men employed in the local office to keep collected mail moving.

Patriotic and civic organizations gave special Washington day programs and in the evening, the annual policeman's ball is listed with the Elks' ball as the outstanding social functions with many private celebrations scheduled.

MAJOR BALDINGER IS ORDERED IN RETIREMENT

WASHINGTON, — Major Ora M. Baldinger, of Marion, who served as military aide to the late President Harding, has been found disabled for active service and ordered into retirement, it was learned at the war department.

An army medical board about three weeks ago discovered disabilities such as to necessitate his retirement under army regulations. His eyes were found to be defective, it is understood.

An old friend of the Hardings, he was bade aide to the president soon after Mr. Harding was inaugurated.

Constipation is ruinous to children—keep yours healthy with Kellogg's Bran

Constipation undermines a child's health. It saps his energy and makes him listless. It can lead to more than to other serious diseases. Mothers should take immediate steps to remove, quickly and surely, the dangerous poison from his system.

Kellogg's Bran—because it is ALL Bran—keeps permanent relief. Nothing but ALL Bran can be 100 per cent effective. That is why Kellogg's Bran, cooked and krumbled, is universally recommended by doctors. They know it brings results.

If eaten regularly, Kellogg's Bran is guaranteed to give permanent relief in the most chronic cases of constipation, or your grocer returns your money. Kellogg's Bran acts on the intestines exactly as Nature acts. It sweeps and cleans and purifies them. It makes them function naturally and regularly. It allows you to discontinue forever the use of harmful, habit forming drugs and pills.

Kellogg's Bran cooked and krumbled, is a delightful surprise to the taste—particularly as it has tried ordinary uncooked bran. Kellogg's Bran has a delicious, crisp, nut-like flavor—an extra relish. It is most enjoyable with milk or cream, sprinkled over other cereals or cooked with hot cereals. Try it in bread, muffins, griddle cakes and other recipes given on every package.

Have your children eat it regularly two tablespoonfuls daily—in chronic cases, with every meal. Kellogg's Bran is made by the Battle Creek and sold at all grocers. It is served in individual packages by the leading hotels and clubs. Ask for it at your restaurant.

Drink Good Oranges and Get All the Juice

The best way to *eat* good oranges is to *drink* the juice. A good orange is juicy enough to drink.

Sealdsweet Florida Oranges

As they are always filled to overflowing with sparkling, sweet, full-flavored juice, whatever the outer appearance, you may drink Sealdsweet Florida oranges.

Sealdsweet Florida grapefruit, fresh from the groves, and Sealdheart grapefruit, in cans, are alike appetizing and healthful.

Ask your fruit dealer for Sealdsweet oranges and grapefruit, and insist on having them in the sanitary tissue-paper wrappers in which they are shipped.

RUTH'S DOGS BARK

HOT SPRINGS, Ark.—Babe Ruth has had to stop training on account of aching feet.—News Item.

WASHINGTON, D. C.—President Coolidge was profoundly shocked at news from the South that Babe Ruth's expansive puppies had gone democratic, and promised an "immediate, adequate and [illegible]" investigation.

SUDBURY, Mass.—[illegible] quaint little township was plunged into gloom today when it was learned that Ruth's [illegible] have cracked [illegible]. A mayor's proclamation [illegible] to the assembled [illegible] and flags were hung at half mast.

LONDON—The Prince of Wales was in no position to comment officially today on the revolt of Ruth's bloodhounds when approached by your correspondent. The young gent at the moment [illegible] being dragged from under [illegible].

• • •

MIAMI, Fla.—[illegible] that the Stambino's maligned gruffons had folded up under him, Gene Sarazen registered a triple distilled look of surprise, and commented as follows: "What do you think! I got Baton Rouge on the radio last night!"

NEW YORK—Wall Street tottered on the thin outer edge of a man's size panic when the news broke that Ruth's wire-haired terriers had gone on strike. "Why on earth hold he bathe them in lard?" the hysterical Morgans asked.

HOLLYWOOD, Cal.—The motion picture industry, as it is jokingly called, received the news of the Ruthian holocaust with considerable composure. "All I ask is that the public hear my story," commented Mable.

PARIS—The franc tumbled to new low levels following the collapse of the Bambino's stanch Airedales. Poincare pleads for continued optimism. "Maybe it's just a corn," he suggests, hopefully.

SETUPVILLE, Ka.—"Of course the catastrophe will have a serious effect on the Peruvian lettuce situation, but I've always maintained that [illegible] had bad footwork."—Jack [illegible].

CHOSE DATE BY MAIL

CHICAGO—Because of the action of Colonel Palmer Pierce in calling off the national collegiate track meet, scheduled for June 1, members of the committee appointed to pick a date for the Western Conference meet will not meet here Saturday as planned and a mail vote on the question probably will be taken. Since there is no conflict of dates, it is thought the conference meet will be awarded to Chicago for June 7 as originally planned.

RAYMOND SYNDICATE GETTING CHILLED FEET

(BY HENRY L. FARRELL)

NEW YORK—(United Press)—Lew Raymond's $3,000,000 Firpo-Wills fight is wobbling on its crutches and pleading for an opiate to get out of its misery.

After due consideration, Raymond announced that the syndicate of millionaires backing him was unwilling to post a forfeit of $50,000 in a Buenos Aires bank to show Firpo that they were not kidding.

Firpo says unless the money was shown to him in his own currency before March 1, he will consider other offers.

Tex Rickard has made the other offer and Firpo has significantly remarked "From Mr. Rickard the money is always certain."

Raymond said the syndicate was willing to put up $50,000 as a forfeit in an American bank, the inference being that it would be easier to grab back here than in a South American vault.

Angel Firpo had been signed to meet Farmer Lodge and Ermano Spalla, when Raymond announced that he would give Firpo and Wills $250,000 each, and would build a sunken concrete arena 50 percent larger than the Yale Bowl, Raymond now says that his millionaires are concerned lest Louie make a mess of himself Saturday against Lodge, or get his whiskers shaved by a cut from Spalla's right duke.

Perhaps the syndicate had its poise fluttered and its hands tightened on the roll when it heard that Firpo had taken on 40 pounds or so and that he was in no condition to corral the standard across a good rocker.

Rickard said Friday that his attitude was expressed in a cable sent to Firpo some time ago saying he was prepared to equal any offer made to the South American or to Wills by a legitimate promoter.

Rickard said that Firpo and Wills knew that he was willing to offer them and that they both knew he could pull off the fight when he had them signed to articles.

COMMISSION SILENT

NEW YORK—The course of action which the state athletic commission will pursue in investigation of charges that Tex Rickard was in collusion with ticket speculators in connection with the Dempsey-Firpo heavyweight battle, may be determined tomorrow when the boxing solons hold an informal meeting.

George F. Brower, chairman of the commission who has warned Rickard that speculating at Madison Square Garden must be stopped if he are to retain its ring license, would not reveal what his next step would be, but it was believed he desired to consult his colleagues William Muldoon and James Farley, before deciding on a plan of action.

At the offices of the commission, however, it was said no summons had been issued for Rickard or Tom O'Rourke, who made the allegations against the promoter at a hearing on the boxing repeal bill in Albany, to appear before the boxing organization.

Pin Topplers Gather In Chicago

CHICAGO—(Associated Press)—The greatest tournament in the history of the American Bowling Congress will get under way here February 28, to continue for 26 days, with a record breaking list of 2,131 teams, 10,695 individual pin maulers entered in the competition for prize money running close to $160,000.

Measured from the standpoint of number of contestants, the event is the largest sporting proposition ever held. It is probable that no other event in the world enlists as many contestants, not even the Olympic games in which teams from all over the world compete. The major pin event will be decided in the 132nd Regiment Armory on Chicago's west side and 28 especially constructed alleys have been installed to handle the army of pin spillers.

In addition to the 2,131 five men teams, there will be 1,700 two men teams in the hunt for a slice of the prize fund, while 9,147 individuals will compete for the individual championship. The total entry fee amounts to $117,510, apportioned as follows:

$53,275 in the five-men team competition; $17,000 in the doubles and $47,235 in the individual events.

The bowlers will come from all quarters of America, including Canada, [illegible] the tournament an international flavor. Exactly 100 cities will be represented outside of Chicago. Milwaukee furnished the largest out of town entry, sending 120 teams. Detroit, an expected bidder for the 1925 tournament, entered 100; Cleveland and Cincinnati each contributed 33; Toledo 25 and Columbus 15. New York City will have ten teams in the competition and there will be teams from Newark, Orange and Elizabeth, N. J., and Buffalo, which will be represented by 25 teams. Teams also are entered from San Jose, California, Toronto, and Winnipeg, Can., and as far south as Jacksonville, Fla.

All of last year's champions will be in the competition. The Nelson Mitchell team of Milwaukee, which annexed the five men title with a world record count of 3,139, will roll under the name of the Ziegler chocolates this year. Daw and Wilson, Milwaukee, who captured the doubles championship last year with mark of 1,348, another record, also are entered. Carl Baumgartner, of Cincinnati, winner of last year's singles championship with mark of 721, will defend his title. The veteran Billy Knox, of Philadelphia, the A. B. C.'s only "300 [illegible]" will roll with a Quaker City outfit. Knox's total of 2,019 in the all [illegible] last year, was a record.

St. Johns Down Rivals In A Close Game

The St. John's cagers defeated the St. Gerard's quintet in a well played game 12 to 10 on St. Rose gym. The score was close thruout but the St. John's quintet proved too strong for the inexperienced North Siders.

St. Gerard's scored first on a free throw and held the lead the rest of the half. The period ended 6 to 5 with St. Gerard's on the long end.

However St. John's seemed to benefit by the rest period and came back strong the second half forging ahead on field goals by Farley and Falk.

Farley led St. John's in scoring with 6 points. Selvagio ran him a close race with 3 free throws and a field goal.

Fitzpatrick was the big point-getter for St. Gerard's with 4 field goals.

In the preliminary the St. Rose Reserves downed the Grace M. E. Juniors 21 to 14. Dimond registered 7 points for the Rosarians.

Immediately after the game the St. Rose Reserves challenged St. John's to a game to be played either next week or the week after. It is not known whether the St. John's five will accept the challenge or not. The Red and White scrubs have a perfect record this season and are confident they are strong enough to defeat St. John's.

Taboo Golf In Kentucky On Sunday

FRANKFORT, Ky.—(By Associated Press)—Playing golf in Kentucky on Sunday would be punishable by a fine of $25 to $100 and a jail sentence of 10 to 30 days, under penalties provided in a bill introduced in the upper house of the general assembly by state Senator J. B. Clark of Martin-co.

Persons wagering on the outcome of a golf game any day in the week would be liable to the same penalties, under the bill.

Study of the record today revealed that Senator Clark was among those who voted yesterday to kill a measure under which a state law legalizing parimutuel betting at Kentucky race tracks would be repealed. The repealer which passed the house 56 to 38, lost in the senate 21 to 11.

TIERNEY STEPS INTO ATHLETIC SPOT LIGHT

NEW YORK — (Associated Press) — A formidable candidate for Olympic distance laurels stepped into the athletic spotlight today in the person of Joseph Tierney of Holy Cross college.

Tierney flashed two world's indoor record performances last night in a spectacular track and field meet held by the New York Athletic club at the 22nd regular army. He will receive official credit however, for only one, a record of 58 seconds for 500 yards which he established in defeating a fleet field, including Tommy Campbell and Ray Robertson, in the Buermeyer special. His time was two-fifths of a second faster than the mark Jake Driscoll of Boston, established two years ago.

Tierney's other performance was in the third leg of a three cornered relay in which Holy Cross opposed Yale and Virginia. The sturdy New Englander raced his quarter in 49 1-5 seconds, one-fifth of a second faster than the world's mark held jointly by Tom Halpin and Walter Koppisch, but since it was made in a team event, it will not be entered on the record books.

AS A MATTER OF FACT

Being a Criticism of the Just and the Unjust in the World of Professional and Amateur Sports

BY HARDY BRADBURY

Johnny Horvath called on the Sports Editor of The Lima News Thursday. He was accompanied by his manager Johnny Newton. Horvath was just getting back from Jackson, Mich., where he had just finished a 10 round bout with the much touted Giunchi, Italian lightweight. Horvath did not seem much the worse from a battle which according to those who saw it and the sport scribes of that city, was a humdinger. It was given in the Elks Temple in that city. Horvath got much the better of the early rounds, and it was confidently expected that he would win easily, but in the latter rounds, the Italian showed an unexpected reversal of form and did so well, altho the accounts say he did no damage, that the bout was decided a draw. In the infighting Horvath had the better of the bout. Both tried hard for the body repeatedly at close quarters, and both landed a number of good punches. Perhaps the decision was all right, altho in a finish bout, it would seem as tho Horvath was much the most finished boxer.

It was but natural to touch on the all absorbing topic, so far as Lima is concerned, of a bout between Jakie Gross and Horvath. Correspondance from Newton regarding his willingness to match Horvath against Gross, as published in the Lima News exclusively, is well known to local devotees of the boxing game. Newton was profuse with his thanks for setting the matter right.

READY TO MEET GROSS

When informed of Earl Smith's answer, regarding a match between these two boxers. The fact was brought out plainly that Smith was willing to close contracts, but not at 130 pounds, because it was impossible for Gross to make that weight. Newton answered by saying that he was ready that Horvath should meet the local boy at 140 pounds, if that was any inducement any time and any place: that there will be no trouble in arriving at the weight best suited to Gross seems certain and it looks as tho there is liable to be something doing in the near future. Smith has stated that he would post any ordinary amount of money to bind a match between these two boys, providing the weight agreed upon should be no less than 133 pounds at 3 o'clock. It should be a great match and would undoubtedly attract a large crowd. The North Dayton club have matched Horvath against Blockie Richards, in a 10 round bout, which will take place next Wednesday. It is their second meeting. Horvath got the first decision. Richards is a tough proposition and the bout will be looked forward to with considerable interest.

NEW YORK — Johnny Clinton and Pete August, New York flightweights were thrown out of the ring in the fifth round after Referee Magnolia had warned them three times for stalling.

WATERBURY, Conn. — Kid Kaplan, Meridan, featherweight, won a 12-round decision from Billy De Foe, St. Paul.

PHILADELPHIA—Ad Stone, Philadelphia, light-heavyweight, has accepted an offer of $50,000 to meet Gene Tunney. Mike McTigue and Young Stribling in three outdoor bouts here this summer.

FIGHT PICTURES AT FAUROT

Manager Clark of the Faurot announces the Tex Rickard fight pictures of the Dempsey-Firpo bout, beginning Tuesday, pulled off in New York recently. There is one point that fight fans will note in these pictures, and it will settled an important dispute. Was Dempsey assisted back into the ring, after he was knocked over the ropes? If he was, according to the rules, he lost the fight. Jack McAuliffe made a statement that he was assisted.

First Baseman Lu Blue of the Detroit Tygers, who slumped badly in his batting last season, is hopeful of returning to his 1922 form at the plate.

ONE of the most pleasing bills of the entire season began an engagement that will fill out the remainder of the week, closing Sunday night at the Faurot. There is not a weak act on the program. Boyd and King open the show, she in a stunt she calls the Chameleon Girl, meaning that she makes many changes suitable to the manner of song or recitation. The young man plays the piano exceptionally well. In Wallace Galvin's act, he produced enough eggs, from some mysterious region, to lower market quotations. The act is very interesting, very puzzling and laughable. Bayley and Porter did a character act that pleased the audience. Bayley works as an old man, and his character delineations are very clever.

Almost every week there is a single act, doing a monologue, sometimes good and sometimes very bad. While there is a sameness to all of them, they are considered necessary to fill out every vaudeville bill. In Joe Bennett's act, he has hit on an entirely new idea. It is away from anything else in this line that has been seen in Lima for a long time. He is clever and he is original; a fine dancer of the eccentric style and a talker that says something. He works in blackface, and it is proper to say that he proved the cleverest single act Faurot audiences have seen this season.

Alexander Bros. and Evlyn are rubber ball jugglers, and do an act they term "All Balled Up." There have been expert hoop rollers and wonderful jugglers at the Faurot this season, but it is not exaggeration to say that this act stands out as original and most pleasing.

"Up She Goes" Coming

WILLIAM A. BRADY'S great, big, beautiful musical comedy, "Up She Goes," with the original New York and Chicago cast, embracing Gloria Foy, the young lady who has risen to the very top of stardom in the past two seasons, will play one performance at the Faurot, Monday night. It is the same company in every particular, scenery, properties, electrical effects, cast, chorus that has just closed its long run in the Studebaker theatre in Chicago. It is a musical production that honestly takes its place among the most important productions today on the American stage.

One Time Beggar Becomes Banker

BERLIN — A bank conducted by a former match seller and beggar near Alexander Place, the heart of the section where the poorest of Berlin's poor live, has the call over the big banks of the city for the patronage of mendicants, street fakirs, street musicians, chorus girls and others in lowly stations.

The proprietor of the bank, Emil Neumann, formerly was a stockbroker. He lost his money by speculation and about the same time he lost a leg when run over by a train.

For ten years Neumann had been one of the street folks, selling matches and begging. One day he was recognized by an old friend, who advanced sufficient money to him to establish himself as a broker and money dealer on a small scale. The street folks had confidence in him and gave their marks to him.

The confidence was rewarded in receipts in dollars, pounds or other stable currency, and hence the street folks continue to patronize Neumann's bank in preference to others which give receipts only in marks.

ORANGES BEAT MILK AS WEIGHT BUILDING FOOD

OAKLAND, Cal., — Experiments made with 99 children in a local school have probed oranges to be a weight-builder for undernourished youngsters according to Mrs. A. F. Morgan, proffessor of household science at the University of California.

For two separate periods of eight weeks each the children of one group were given half a pint of milk a day, those of another group one orange daily, others half a pint of milk and an orange and others a quarter of a pint of orangcade.

Mrs. Morgan said that oranges proved the most efficacious in putting on weight. Milk produced favorable increases, but to less extent that the oranges. Orange juice was found slightly less effective then raw oranges.

Milk and oranges together stimulated nourishment as a level a little higher than milk or orangeade, but not as well as the raw oranges.

COLOR LINE GIVES WAY TO ART

Mary Blair, Actress, to Play Opposite Negro Star

NEW PLAY IS CRITICIZED

Opens in New York Theatre About March 10

NEW YORK — (United Press)— Art stepped across the color line today and Mary Blair, white actress consented to play the lead in Eugene O'Neil's forthcoming play opposite Paul Robson full blooded negro.

Action of the piece calls for Miss Blair to kiss Robson, who is first her lover then her husband, as the drama of mixed marriage "All Gods Chillun Got Wings" unfolds.

A storm of criticism has been evoked by insistence of the producers, the Provincetown Players, upon casting the negro for the leading male part.

Several actresses refused to play opposite him in view of the story which calls for the white girl heroine gradually losing her mind as she lives with her negro husband, until as the final curtain falls she abases herself and kisses his hand.

Miss Blair consented, but refused to say what her feelings on the matter were. She is a northern girl.

Jack Dempsey Is Introduced To President

WASHINGTON — (Associated Press) — President Coolidge greeted Jack Dempsey today as "one who has been before the public longer than I have."

The world's heavyweight champion, accompanied by Jack Kearns, his manager, called at the White House and was introduced to the president by Secretary Slemp with the explanation that the boxer could knock out a man with a two-inch punch.

"Well, that is two inches more of a punch than I would like to get from you," the president replied.

The president inquired if he had "any engagements in sight" and was told that Dempsey expected to box two or three times during the spring and summer."

WOOL MARKET

BOSTON—The commercial Bulletin will say tomorrow.

The market has shown little change during the past week. Prices are steady, with certain specialties suited to the woolen trade appreciating slowly. Further openings of fancy worsteds by the American Woolen Company this week at substantially last year's prices have not helped the market any as yet, altho everything in raw materials is very firm. There is little new from the west.

The Commercial Bulletin will publish the following quotations:

CROWDS STILL JAM THRU ROOM

Special Features Continue to Attract at Auto Show

Washington's Birthday was being celebrated quite generally in Lima by attendance at the automobile show by those who had a holiday. The show which is being held in the Timmerman-bldg, at 545 West Market-st, was especially decorated for the day with pictures of Washington and a generous scattering of hatchets and other remembrances of the day.

Thursday afternoon and night scores of members of the Lima Lions, Rotary and Kiwanis clubs attended the show with their families. The day had been named for them.

The big display of automobiles which occupies the two spacious floors of the Timmerman-bldg, was as attractive to Lima residents as to the out-of-town visitors who continue to come in large numbers. The four-wheel brake and the balloon tire continue to be the center of interest and thousands of questions pertaining to these automotive innovations have been answered since the show opened.

W H Howell, Lima Overland and Willys-Knight dealer, who is secretary of the Lima Automobile Merchants Association, Friday said the show has been one of the best in the city's history. The association is co-operating with the Great American Mutual Indemnity Co which is sponsoring the exposition.

The show will close Saturday night at 11 o'clock. Saturday will be fraternal day when it is expected that a large attendance of fraternal orders will be registered. The show is open daily from noon until 11 p m.

NEW SCHOOL PLAN OFFERED

Pittsburg Concern Proposes Consolidation of Institutions

WOODLAND, Pa — (Associated Press) — Believing that the education of children in districts remote from centers of population with their modern advantages can best be carried on by consolidating district schools into one well organized institution officers of the Harbinson Walker Refractories Company of Pittsburg have made a novel proposition to the local board of education.

There are five old wooden school buildings in the community all of them carried on under the generally accepted plan that children must be educated but that environment has no influence upon them. Here the children go from day to day the drab and unattractive surroundings of the old system ever present. They leave school as soon as possible some of them to get away from the monotony and are soon at work with only a smattering of what they ought to know, even tho they are never to take a commanding place in the community.

To get away from this Hamilton Stuart vice president of the refractories company, has proposed to the school board that it buy all the old school houses. In their place he would have erected at some central point a modern well equipped building to house all of the children. Here Stuart told the board they can have the advantages of a large and better force of teachers, and a part in the many activities which have come to mark the public school system in more important communities.

As a further inducement Stuart offered to bear all the expenses of building an auditorium to be used in in connection with the school. This auditorium is to be furnished and equipped in the most modern manner and is designed materially to carry out the idea that massing the students under one roof will open the way to many pleasant and profitable activities hitherto unknown in the community.

LEGION TO TALK DANCE PLANS FRIDAY NIGHT

Plans for the [illegible] annual American Legion dance to be held in April will be talked over when William Paul Gallagher Post meets in regular session in club rooms in the Harper bldg Friday night.

It is proposed to make the dance one of the largest and most elaborate affairs ever attempted by the post.

Reports of the progress of the fight in Washington for adjusted compensation will be read along with reports of progress made by other Ohio posts.

Applications of 70 new members will be read to the post. The committee on legislation will report on the proposed immigration resolution.

BRITISH INSURE SELVES AGAINST FRANC'S CRASH

LONDON — The recent persistent decline in the value of the French franc and the unsatisfactory condition of France's finances has caused a good deal of worry to business people here who have investments in French securities or trade connections with that country.

Many of these people have recently been insuring against the franc going to 200 to the pound sterling and have taken out policies at the rate of 30 guineas a hundred pounds. Insurance houses consider the rate is not excessive for a twelve month policy, considering the manner in which foreign currencies have been fluctuating of late.

Resourceful In "Pinch," Negro Is Now A Free Man

WASHINGTON — (Associated Press) — An unarmed negro with a gift of ventriloquism a flack of whiskey and a taxicab for purposes of retreat, proved too much today for the Washington police.

A watchman found him in the basement of a drug store and a squad of police who tried to capture him retired under a fusillade of half pint bottles of prescription liquors and with a rain of threats that seemed to come from several throats in various parts of the cellar.

Tear bombs were ordered but some of them exploded prematurely at headquarters and produced general confusion. Finally captured, the negro jumped from a patrol wagon, scaled a high wall hailed a taxi in the next street, and got away.

The honor [illegible] to Ottawa because Miss Beatrice Sc[illegible] of the graduating class of Ottawa High [illegible] won first honor at [illegible] meet in 1923.

More than a dozen high schools and many pupils are expected to come to Ottawa for the oratorical contest.

The Ottawa High [illegible] its representative [illegible] held Friday afternoon [illegible] school. Three young men were to compete. They were Frances [illegible] Marion [illegible] Head, Wm Stul[illegible] and [illegible] Wilson.

B D Smucker instructor of the public speaking class [illegible] Bluffton college was to [illegible] contest. A [illegible] also was [illegible]

PRICES UNCHANGED

YOUNGSTOWN — Independent steel companies in this district today followed the lead of the United States Steel Corporation in announcing unchanged prices on sheets for the second quarter. The rates are $3 a hundred pounds for blue annealed, $[illegible] for black and $[illegible] for galvanized.

The Hospitality Committee, with Mrs J P Bowman as chairman will meet at the Y W C A [illegible] day at 3 p m.

MARKETS ARE CLOSED

All markets were closed Friday in honor of George Washington, the anniversary of whose birthday it was. They will reopen Saturday.

BASKETBALL TEAMS READY FOR COUNTY TOURNAMENT, TO DRAW FOR POSITIONS

OTTAWA — Ottawa is in readiness for the big county basketball tournament which will open Friday night at the armory.

Preliminary games will be played Friday night. Representatives of teams will meet Friday night in the office of Superintendent George J Kennath of Putnam-co schools and draw for positions in the tournament.

Of the eight teams competing not one now knows which team will be lined up against the other on the basketball floor Friday night. After the drawing four games will be played with the eight teams lined up against each other according to the position in the drawing. Four of the teams will thereby be eliminated after the Friday night games.

The girls teams will meet Saturday afternoon to make the selection in the same way. First girls teams will [illegible] Saturday afternoon. Six girls teams are entered. Neither Glandorf nor Kalida have a girls team.

[illegible] will enter [illegible] boys game Saturday afternoon when [illegible] they will select the opponents [illegible] for the semi finals. The final games between boys will be played Saturday night. Two games in which the girls will play the semi finals [illegible] feature the Saturday night contest.

Referees have been furnished by the Lima [illegible] Co of Lima.

APPELLATE COURT GETS QUESTION ON CUSTODY OF TWO SHAFER BOYS

OTTAWA — Court of appeals has been asked to pass upon the legality of the ruling of Judge E R Eastman in placing Jerry Shafer 9 and brother Earl Shafer 11 sons of Harry Shafer and Mrs Bertha Kohra in the custody of their mother.

The case was argued Thursday in appellate court at Lima, by attorneys for the mother and father. Following the argument Albert Stratman counsel for Mrs Kohra filed a motion asking dismissal of the action in higher court on the ground that court of appeals had no jurisdiction.

[illegible] Judge Eastman gave the custody of the sons [illegible] keeping of their mother. [illegible] was the [illegible] home for them. Mrs Kohra is now the wife of Henry Kohra of [illegible]

Both parents [illegible] that time were seeking [illegible]

Mrs Shafer in 1919 obtained a divorce from Shafer on the grounds of drunkenness. The two boys were decreed to Shafer.

Mrs Shafer later married [illegible] Shafer lives [illegible]

Testimony was introduced by Attorney Stratman at the [illegible] show that recently the farm of Shafer was searched and a quantity of liquor was found thereon.

Henry Wil[illegible] county probation officer testified that Shafer did not maintain a suitable home for the two boys. Shafer appealed the action of Judge Eastman to higher court.

VAUGHNSVILLE BRIEFS

[illegible] school [illegible] was entertained at the home of Miss Edith Edwards Tuesday night. Teachers of Sugar Creek centralized schools were present enjoying the delightful program of music and games. A dainty supper was served.

In the community are the Misses Edith Deffenbaugh, Lizzie Levis, [illegible] Mrs. Bess Sikemiller and daughter Mary Louise [illegible] The Misses Kinsey [illegible] Mills, Bess Seitz, Mary [illegible] Mary D[illegible], Vila and Vera Williams, Naomi Collier and Mrs [illegible] Williams.

[illegible] and Benjamin Watkins of Vaughnsville are employed in Elmer [illegible] wiring up [illegible] electric lights.

FRENCH CABINET SAVED BY VOTE IN SENATE

PARIS—By a bare majority of 16 votes, Premier Poincare has cleared the last dangerous hurdles which threatened to bring down his government. The cabinet is safe for the time being.

There was tense excitement in the senate chamber last night as the vote on electoral laws was carefully verified before being announced.

Poincare was palpably nervous. He had staked the life of his cabinet on the issue that the senate must not change the electoral law as voted by the chamber of deputies.

The senate has been inclined to vote certain changes following a report of its committee. The premier had said he would resign if the laws were not passed as they stood. By a vote of 159 to 1 ..., the laws were passed.

Alja and his band, heralded as one of the best dance orchestras in the east, will play at the Elks' Home Friday and Saturday nights. The Friday night dance is for members of the Elks and their friends but the one on Saturday night will be open to the public.

FOR SALE
Stone Quarry and Equipment and Four Small Farms

On SATURDAY, MARCH 1, 1924, between 10 and 11 o'clock A. M. the following properties will be offered at Sheriff's Sale, in the settlement of the Thomas C. Long Estate:

(1) What is known as the Tom Long Stone Quarry, located 4 miles west of Lima. With this goes about 20 acres of land, about 8 acres of which is stone-strip land. This Quarry is in good, substantial condition, and is in a good stone-business location. The Quarry has been operated for many years, and is completely equipped. The Quarry did a gross business of $19,883.23 in October, November and December, 1923. There are three crushers, in set, and bin capacity of about 1000 tons. The Stone Quarry and land is appraised at $30,000.00. A new Osgood 1-yd. steam shovel, new Quarry Engine, stone cars, and 2 Gramm-Bernstein Trucks (not appraised with the Quarry) will be sold separately. A price on all these articles will be given to all bidders before the Stone Quarry is offered, so that the successful bidder may take the Quarry and all equipment.

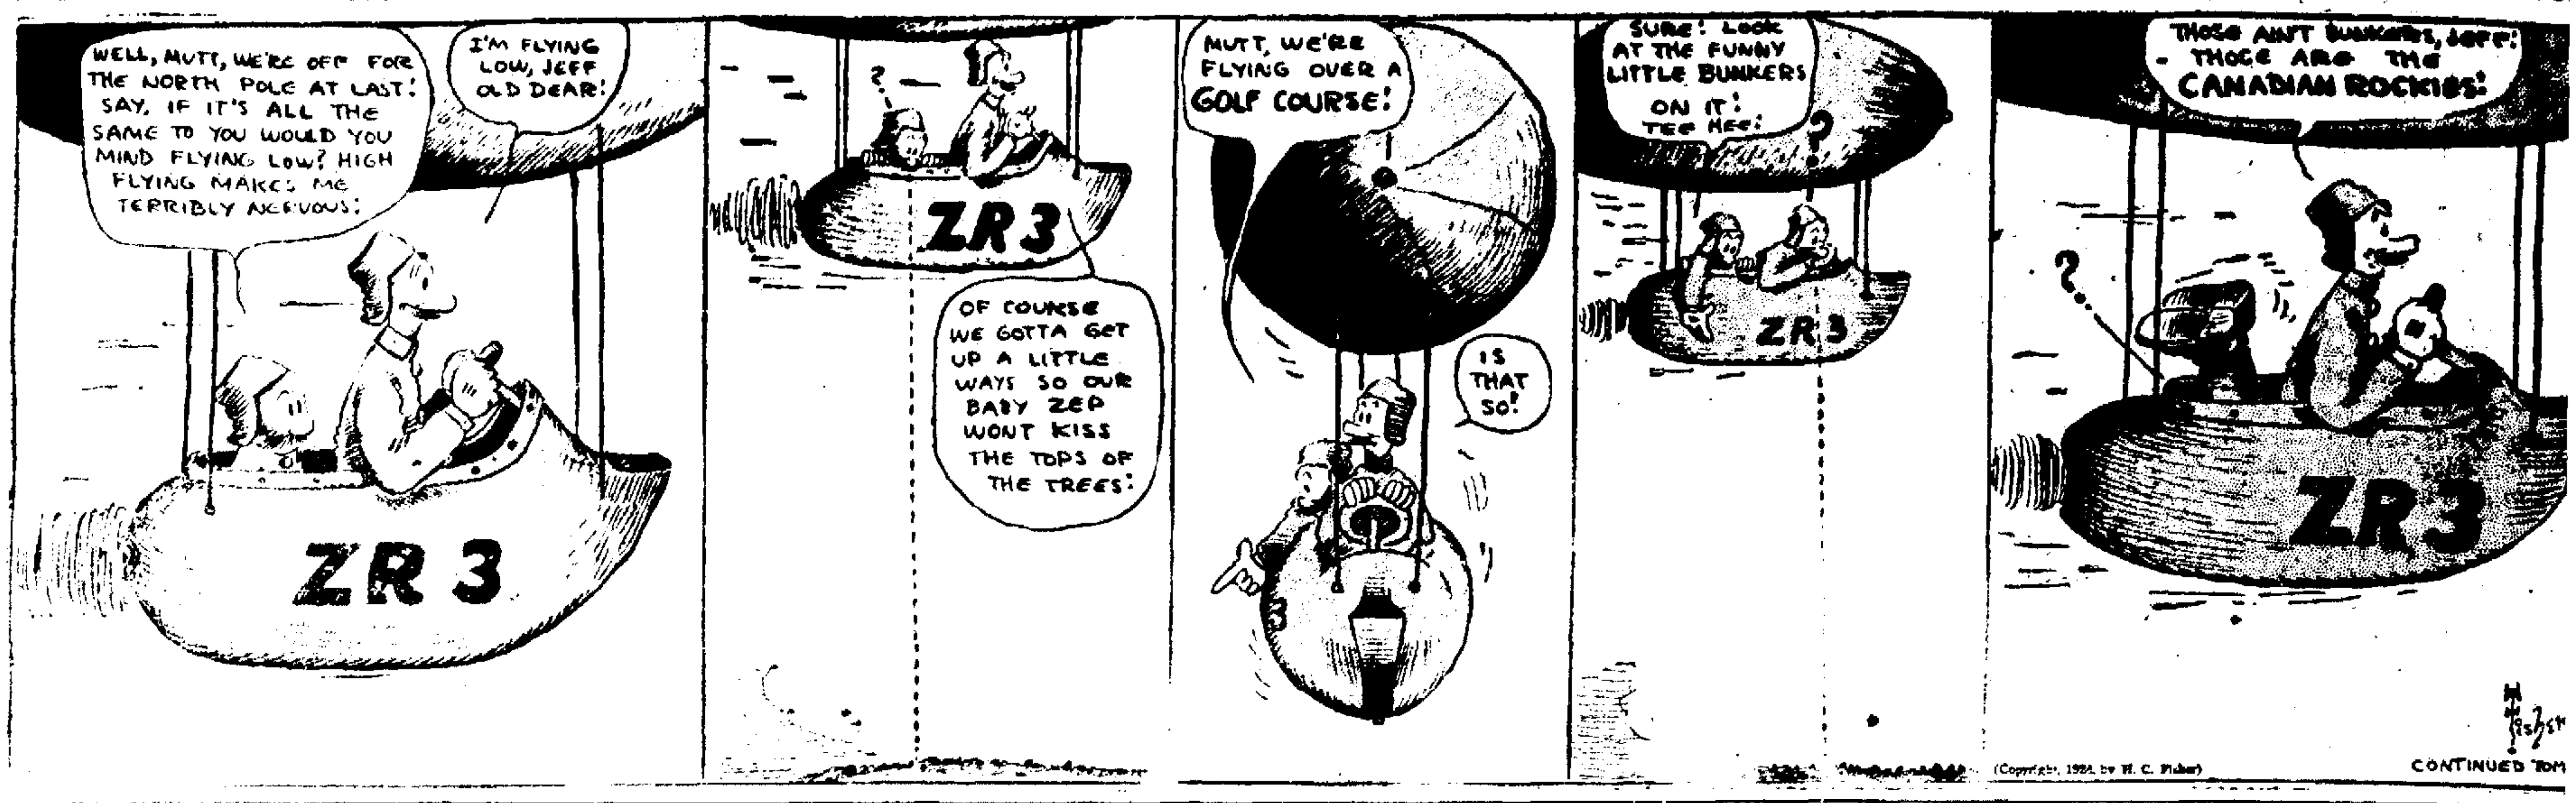

(2) Farm of 50.6 acres, good land, with good set of buildings. (3) Farm of 22.5 acres, with good set of buildings. (4) Farm of 16 acres, with small house. (5) Farm of 8 acres, with good house and barn. (6) Two other small tracts of land. (7) Two resident properties in Allentown. (8) Garage in Allentown. (9) Vacant lot in Allentown.

Terms of Sale: Cash.
